

My local offer

Name:- Denice Fillingham

Ofsted Number :- 132832

I aim to provide an inclusive, nurturing, safe environment for all children in my care, especially any child with identified additional needs or who may not be reaching their development milestones. I will work with the family - discussing progress regularly (following the Early Years Foundation Stage framework). I provide regular progress reports including the statutory 2 year check, I also have regular chats as and when required by parents. If I had a concern I would discuss this with parents either by phone or in person. I use a note book that can be shared with other childcare providers or school (with parents' permission) about the child's progress. As a part of preparing a child for changes (whatever they are) and achieving a smooth transition, I would talk to the child about the changes prior to moving and share with the new setting all information regarding their development.
