Every school is expected to attend one moderation session during this school year.

For the session, you will need to bring:

- information about your SEND Profile
- an example of a young person who is working at SEN support, including the SEN support plans and any other assessments you have used with them
- an example/case study for discussion of a young person who you are not clear about

We will look at the identification toolkit and discuss together and undertake a moderate exercise alongside other Sencos.

The booking deadline is Friday 17th November 2018.

This course is repeated each term
