

What Toys Can Help My Child Talk?

Children learn language best by talking and playing with you. You don't need to spend a lot of money on toys or trips.

Here are some fun ideas:

- Old bags, shoes, and clothes for dress-up play.
- Go outside and splash in puddles or count how many big red buses you see.
- Involve your child in daily activities like cooking! Use simple words like "mixing" to explain what you're doing.

For more activities visit [The National Literacy trust](https://www.nationalliteracytrust.org.uk/) (English)

Or [The National Literacy Trust](https://www.nationalliteracytrust.org.uk/) (Bengali)

Pots, pans, bottles and rice can make musical instruments

Blankets can be for building forts or playing peekaboo...
