## SAFL is Good according to Ofsted

Sandwell Adult Family Learning has achieved a Good rating from Ofsted in their 2018 inspection.

SAFL places the welfare of learners at the heart of their work and strong support enables a high proportion of learners to stay on course and achieve their aims. Outcomes for learners stated many learners make positive progress from their starting points and develop the appropriate knowledge, skills and understanding to gain employment.

Managers and teachers provide high-quality advice and guidance on the courses that are available at SAFL and at other local providers. Learners are clear about the reasons for choosing their courses, and the opportunities that are available on successful completion.

In personal development, behaviour and welfare the inspectors saw well motivated learners, who attend well, feel safe, know how to protect themselves from extremism and radicalisation and who are improving their confidence and learning new skills, which is exactly what adult learning is all about!
