Achieving for Children (AfC) delivers services to children, young people and their families across Kingston and Richmond. As AfC's 14-19 Team, we understand what a big transition point you face after doing your GCSEs. So we have produced this summary to help you with this important step. It sets out the options available to you locally – whether in learning or apprenticeships, and provides links for you to access further information.

Introduction

Involve your parents or carers

Your parents want the best for you, but things have changed a lot since they went to school. Help them to understand how they can help you and what support is available. Show them the parents' and carers' section at the end of this booklet

You may be eligible for financial help post 16

Most young people choose to continue their education or training post 16. You may be able to get financial help. See: Practical help with their course on page 59.

Continuing your education or training does not mean you have to stay at school

Whatever you have achieved in school, there is a post-16 option to suit you. Staying on at school is one option. But you could also continue your education or training at a college, with a training provider or in the workplace.

Education and training are vital to your future success

The number of jobs for poorly qualified, unskilled people is shrinking quickly. You need knowledge, skills and qualifications if you want to get on in life. And that means continuing your education or training.

WHAT ARE MY CHOICES?

To boost your future earning power and improve your job prospects, you need to have the right knowledge, skills and qualifications. There are different post-16 options to gain these, such as:

- full time education, such as school or college
- an apprenticeship
- part-time education or training if you are employed, self-employed or volunteering for 20 hours or more a week

Advice and guidance on the full range of options open to you is available through your school, as well as the National Careers Service helpline.

Call them on the number below or visit

www.nationalcareersservice.direct.gov.uk

Quick start guide

GCSES ARE CHANGING

GCSE grades have changed. Instead of the grade A, B, C system, they are now graded on a 9 to 1 scale, where Grade 9 is high and Grade 1 is low. A Grade 4 is a 'low' C and it is expected that broadly the same number of learners will achieve a Grade 4 and above as previously achieved a Grade C and above.

For legacy GCSEs, the following table shows the score scales for GCSE grades A* to G.

NEW GCSE GRADING STRUCTURE									
9	8	7	6	5	4	3	2	1	U
A*	A	B	C	D	E	F	G	U	
LEGACY GCSE GRADING STRUCTURE									

Entrance criteria for Level 3 courses will differ depending on the subject, but generally you will need a Grade 4 or above in English and maths and usually a higher grade (6 or 7) in the subject you wish to study in Year 12.

Check individual course details on college websites to clarify what qualifications you will need.

Starting a course that's right for you

LEVEL 6

You will need to have completed your HND, foundation degree or the second year of your degree.

LEVEL 5

You will need to have completed your first year of your HND, foundation degree or degree.

LEVEL 4

You will need to have completed your Level 3 course. You will be able to study either a Higher National Certificate, Foundation Degree, Degree or other Level 4 course.

LEVEL 3

You will need to have completed your GCSEs with a minimum of 4 or 5 A* to C or merit grades or equivalent on your Level 2 course with a Grade 4 or 5 in English or maths depending on your chosen course.

LEVEL 2

You will need to have completed your GCSEs mainly at Grade 3 grades or equivalent or have successfully completed a Level 1 course.

LEVEL 1

You will need to have completed your GCSEs mainly at E to G grades or equivalent or have completed an Entry Level course.

ENTRY LEVEL

This is your first step if you have no GCSEs or formal qualifications.

After establishing your level from the list above, you will generally select a course that is at a higher level.

You will be able to progress from Entry Level to Level 4 through a variety of different course options. When you complete a course you can move on to the next course above or along that level provided you meet the entry requirements.

For example, if you have recently achieved 5 A* to C grades at GCSEs or equivalent¹ you can progress on to Level 3 through A Levels or an advanced apprenticeship.

For more information on these types of courses, see Study programmes on pages 12 to 14.

Level 4	University		Higher Apprenticeship	
Level 3	A Levels		Advanced Apprenticeship	
Level 2	GCSEs (A* to C)	Skills for Life qualifications	Vocational qualifications	Intermediate Apprenticeship
Level 1	GCSEs (D to G)	Skills for Life qualifications	Vocational qualifications	
Entry Level		Skills for life qualifications	Vocational qualifications	

Post-16 quiz: which route is best for me?

It is important to choose something that suits your interests and abilities and will give you the best possible chance of success in the future. Find out what possible route is best for you by taking the quiz below. Think about what you want to do post 16 then choose A, B or C.

Post 16, I want to...

- a. Continue studying to gain a full Level 2
- b. Go to work and gain qualifications as I earn
- c. Continue to study, but I am not sure which qualifications to do

- a. Do a full-time course at a school or college
- b. Work and study part-time
- c. Think about what I could do in the future – maybe get a job with training

- a. Study subjects I enjoy and am good at
- b. Gain a qualification linked to the work I want to do
- c. Get some advice about courses and qualifications that would suit me

- a. Gain qualifications so I can earn more in the future
- b. Get a job with training and start earning money now
- c. Find out how to get some financial support for my studies

- a. Study for higher level qualifications to get the job I want
- b. Start work as soon as possible
- c. Do something positive that will put me on the right route

How did you score?

Add up your totals of As, Bs and Cs and check your results.

Mostly As Continuing your education or training at school or college seems to appeal to you. If so, you have many choices to research before you make a decision. In this booklet, pay special attention to the sections on study programmes (pages 12 to 14).

Mostly Bs Earning while you learn seems to interest you. If so, you have many choices to consider before you make a decision. In this booklet, pay special attention to the following sections: Traineeships (page 19), Apprenticeships (pages 20 to 23) and AfC Info website (page 25).

Mostly Cs It sounds like you are not sure what you want to do. When you are using this summary, pay attention to the following sections: Traineeships (page 19). The options at a glance (pages 15 to 18) and support into education, employment or training (page 54).

Your school has a duty to support you with independent information, advice and guidance (IAG). Schools usually have access to careers software that provides up-to-date information on jobs and careers and possible career routes for you, based on the qualifications you are studying. These portals are worth a look to help you decide your next step!

Study programmes

AfC wants to ensure that all its learners are helped to overcome barriers to access and learning.

ENTRY LEVEL

Entry Level courses are designed for people with few or no qualifications who need additional support to progress. Programmes are usually delivered in small groups with lots of practical activities designed to help you improve your reading, writing and IT skills. Entry Level awards (below Level 1) are usually not stand alone, but are offered as part of a wider package of qualifications – contact the learning provider to find out more about the whole programme. You will also see that some qualifications are also offered at Level 2 – offering you an opportunity for course progression. It is good to note that entry level courses are split into three levels: Entry Levels 1, 2 and 3.

LEVEL 1 LEARNING

If you think you might need to develop your skills and knowledge a bit more to achieve a Level 2, a Level 1 programme might offer a stepping stone. To enrol on to a Level 1 programme, you will probably need GCSEs at grades E to G or equivalent, or to have successfully completed an Entry Level programme in a similar subject. There is a wide range of Level 1 programmes available through our providers in Kingston and Richmond that include qualifications in numeracy and literacy, employability skills and the opportunity to learn more about different vocational areas.

Some learning providers offer places on learning courses at any time during the year, as long as the provider has space on the course. It is worth bearing this in mind if your plans do not turn out quite as you had hoped, or if you need to change your direction mid-year.

What you can do next: On completing the course you can receive help from the provider to plan your future and choose options that fit your needs. This could lead to qualifications like GCSEs or other Level 2 qualifications. You can also prepare for supported employment and/or independent living

LEVEL 2 LEARNING

Level 2 qualifications provide the entry point to many jobs or Level 3 courses. A full Level 2 is made up of five GCSEs grade A* to C or equivalents, such as BTEC awards. If you have achieved a grade C to E at GCSE, then you may choose a vocational or work-related course at Level 2, although check the entry requirements for individual courses. Some providers allow you to retake GCSEs alongside your Level 3 learning. See the provider directory (pages 26 to 52) for more information.

Apprenticeship option: You can also gain a Level 2 qualification by enrolling on to a Level 2 apprenticeship programme; also known as an intermediate apprenticeship. Apprenticeships provide alternative routes to education and you will gain valuable experience of the workplace while being employed and at the same time working towards an NVQ Level 2 qualification which is equivalent to five GCSEs A* to C. For more information about apprenticeships, visit pages 20 to 23.

What you can do next: A Level 2 qualification enables you to progress on to a Level 3 programme or to enter employment in certain sectors.

LEVEL 3 LEARNING

A full Level 3 is equivalent to two or more A Levels or an NVQ Level 3. You will need Level 3 qualifications to get on to most university courses with a Grade 4 or above in GCSE English and mathematics.

Most A Level courses take two years to complete and you will study three subjects. Some A Level programmes include a fourth subject in the first year (Year 12), leading to an AS qualification. You should visit the various websites of school sixth forms, sixth form colleges and further education colleges to see which A Levels are on offer.

Apprenticeship option: If classroom-based learning is not for you, you could sign up for a Level 3 apprenticeship – an advanced apprenticeship. Apprenticeships provide experience of the workplace while being employed and at the same time working towards an NVQ Level 3 qualification.

For more information on courses in your area check the UCAS Progress website at www.ucasprogress.com

What you can do next: A Levels are intended to prepare you for higher education or employment. There are various combinations that are preferred by universities that include certain subjects, such as English, history or languages, which are known as 'facilitating' subjects. And if you would like to get into a particular field or have a career in mind, be sure to research the entry requirements as some require specific subjects and grades.

VOCATIONAL QUALIFICATIONS FROM ENTRY LEVEL TO LEVEL 3

Vocational qualifications such as BTECs, City & Guilds and OCR Nationals are work-related. They can vary by level (from Entry Level to Level 3) and come in different sizes with an award being the smallest, then a certificate and the largest being a diploma.

Vocational qualifications can cover a broad industry sector or can be specialised to a specific part of a sector. Vocational qualifications can take between one and two years to complete with those aged 16 to 19 normally studying for vocational qualifications at Entry Level to Level 3.

SKILLS FOR LIFE QUALIFICATIONS

Skills for Life (sometimes referred to as Basic Skills qualifications) are designed to help learners develop their reading, writing, maths and ICT skills. There is also a Skills for Life qualification in English for Speakers of Other Languages (ESOL).

They are available for those learners who are over 16 years of age, have left compulsory full-time education and do not have an up-to-date English or maths qualification at Level 2 (such as a GCSE).

Skills for Life qualifications are available at Entry Level to Level 2.

The options at a glance

Traineeships

Traineeships are aimed at young people aged 16 to 18 (or up to 24 if you have learning difficulties) who are not in a job, but who want to work and who need help in developing work-based skills. An initial assessment process will help determine how the programme can be shaped to your needs, but will include classroom-based learning plus an extended work placement in a vocational area that matches your skills and abilities.

Traineeships can last up to six months. If you do not have English and/or maths GCSE at grade 4 you can still apply for a traineeship as you will have the opportunity to gain work-based qualifications in these subjects called functional skills. You can also gain qualifications in ICT, team working, personal planning, and customer service and employability skills. See the individual provider pages on pages 26 to 52 to see which providers offer traineeships in the local area.

Apprenticeships

Apprenticeships offer structured training in the workplace and are available at four levels.

INTERMEDIATE APPRENTISHIPS (LEVEL 2)

An intermediate apprenticeship is equivalent to 5 GCSEs at Grade 4. You will work towards work-based learning qualifications such as an NVQ Level 2, functional skills and, in some cases, a relevant knowledge-based qualification such as a BTEC. These provide the skills required for the apprentice's chosen career and allow entry to an advanced apprenticeship.

Intermediate apprentices can expect to earn between £48,000 and £74,000 more than their peers without an apprenticeship over the course of their lifetime.

ADVANCED APPRENTICESHIPS (LEVEL 3)

An advanced apprenticeship is equivalent to two A Level passes. You will work towards work-based learning qualifications such as an NVQ Level 3, functional skills and, in some cases, a relevant knowledge-based certificate such as a BTEC. To start this programme, the applicant should ideally have five GCSEs at Grade C or above or equivalent or have completed an intermediate apprenticeship.

Advanced apprentices can expect to earn between £77,000 and £117,000 more than their peers without an apprenticeship over the course of their lifetime.

HIGHER APPRENTICESHIPS (LEVEL 4 AND 5)

Higher apprenticeships incorporate a work-based learning programme leading to a nationally recognised qualification at Level 4 or 5, equivalent to a Higher Education Certificate/Diploma or a Foundation Degree. Higher apprentices can expect to take a minimum of two years, although some industries may take longer to complete. To start a higher apprenticeship, you will need to have entry qualifications, typically at Level 3 such as A Levels, advanced level diploma, NVQ Level 3 or have completed an advanced apprenticeship. You may then choose to move onto a degree apprenticeship.

Higher apprentices can expect to earn up to £150,000 more than their peers without an apprenticeship over the course of their lifetime.

DEGREE APPRENTICESHIPS (LEVEL 6 AND 7)

Degree apprenticeships start at Level 6 which is equivalent to a Bachelor degree and a Level 7 is equivalent to a Master's degree.

All apprentices are employed for at least 30 hours a week and are paid a salary, with many apprentices now earning around £170 a week, and on the higher scale up to £250 a week.

You will probably attend college or a learning provider for at least one day a week to build up your knowledge and skills. The time it takes to complete an apprenticeship depends on the sector you are working in and the type of qualifications required, although at intermediate level you would probably expect to achieve it within two years.

"Being an apprentice has given me opportunities to move ahead quicker and with more confidence. Working with a major employer has opened up experiences that I wouldn't have got by studying full-time but I wanted to keep up my studies too".

- Isobel

GETTING AN APPRENTICESHIP

Entry requirements for apprenticeships vary according to which sector you are interested in – some require GCSE English and/or maths. But if you don't have these, you will still be able to achieve either key skills (such as working in teams, problem-solving, and communication and using new technology) or functional skills (such as maths and English). Every apprenticeship contains these and you will be required to work towards them to get to the right level for the job you are in.

There can be quite fierce competition for apprenticeship places with employers, so you will need to show that you are committed to taking up a place and aware of your own responsibilities to yourself and to the employer. You will also need to be comfortable working in a team and on your own, to be able to use your initiative and to get on with people.

If you are a young person with special educational needs and disabilities (SEND), you can apply for an apprenticeship provided you are able to meet the minimum qualification requirements. Learning providers will ensure you are supported as necessary (if you need help) during the off job learning element of the apprenticeship. Employers can also help with additional support in the workplace, through Access to Work funding from Job Centre Plus.

The Government is serious about making apprenticeships a key route for young people post-16 and is putting in place changes to the shape of apprenticeships. Employers will also be firmly in the driving seat and are leading the way in developing apprenticeship 'standards' for jobs in every sector. Over the next three years, the Government will ensure that an apprenticeship:

- is a job in a skilled occupation
- requires substantial, high quality training lasting a minimum of 12 months, of which around 20% (one day a week) is off the job
- develops transferable skills, and English and maths, to progress your career – remember that an apprenticeship should equip you for jobs in the future as well as the one you start off in
- leads to full competence and capability in an occupation that will be recognised by achievement of an apprenticeship standard
- develops you to the level required to apply to join a professional body, where this is relevant

Supported internships

If you have a learning difficulty or disability, you could consider doing a supported internship. You will get the skills you need for work through learning in the workplace. Internships normally last for a year and include unpaid work placements of at least six months. You should be able to move into paid employment at the end of your internship. You will complete your own study programme which includes the chance to study for qualifications, if suitable, and English and Maths to an appropriate level.

In your area you can do a supported internship through one of our further education colleges and get work with a local employer – so you won't have the hassle and expense of travelling too far. You will need to have an education, health and care plan to qualify.

Follow the links below to find out more about supported Internships on offer locally:

For more information on supported internships at Kingston College, see page <https://kingston-college.ac.uk/subject/supported-learning-courses/supported-internship>

020 8546 2151

www.kingston-college.ac.uk

Kingston College is a large, further education (FE) college serving the south west London region, offering a wide range of subjects from Foundation Level up to Level 4, as well as apprenticeships. admissions@kingston-college.ac.uk

APPRENTICESHIPS

Kingston College provides apprenticeship training at intermediate and advanced levels in a whole range of sectors, including:

- Barbering
- Beauty
- Business and administration
- Childcare
- Customer service
- Electrical installation
- Engineering
- Hairdressing
- Human resource Management
- IT
- Lab technician
- Legal services
- Motor vehicle
- Operations and departmental management
- Pharmacy services
- Retail skills
- Team leading and supervising

For further details on any of these courses, please visit website the college's website above or email apprenticeships@kingston-college.ac.uk

Kingston College's Careers Advice Team offers a client-centred, confidential, impartial and accessible service which is delivered by professionally qualified staff. The service is available for students of all ages and meets the needs of both our learners and the wider community. Careers advisors are available to discuss course, career, and employment and apprenticeship opportunities. The team provides up-to-date and accurate information and is committed to assisting learners to meet their full potential. If you would like to speak to an advisor, drop into the Student Support Centre (G75 at Kingston Hall Road) or to arrange an appointment call 020 8268 2555 or email careers@kingston-college.ac.uk

My favourite part of the course is watching a design become a real 3D project. The course is a challenge, you learn to change and adapt as you go along. The engineering team are very supportive and help you all the way through.

Bethanie Reeves

Apprentice Engineer

I joined on an Engineering Apprenticeship via Heathrow, who chose Kingston College over a number of other potential colleges. And what a fantastic choice. Great environment with superb facilities for potential engineers to thrive.

Nathan Walton

Apprentice Engineer

I had a great time studying at Kingston College, having finished my first year I couldn't be happier with my results and I look forward to my second year.

Matt Araguez

Apprentice Engineer

ENTRY LEVEL

The Supported Learning Team is an experienced, long standing provider of education and opportunities for young people between 16 to 24 years who are working at Entry Level and have special educational needs and/or disabilities. Programmes are designed to meet individual education and career aspirations and develop life skills. All students follow practical options in hospitality and catering. Students will also work in our Café at All Saints Church Kingston.

Learners have an opportunity to develop skills for progression to further learning, finding employment and living independently.

Contact Supported Learning for further information on the variety of courses and opportunities available.

Lesley Miller

020 8268 2862

lesley.miller@kingston-college.ac.uk

SUPPORTED INTERNSHIP

Kingston College Supported Internships are structured study programmes based primarily with the employer.

They are designed to enable young people with mild to moderate learning difficulties achieve sustainable, paid employment by equipping them with the skills they need for work through learning in the workplace.

Internships would normally last for around three to four months during the academic year. Wherever possible, they support the young person to move into paid employment at the end of the programme.

For more information please contact:

Keith Mellor

020 8268 3065 keith.mellor@kingston-college.ac.uk

LEVEL 1 TO LEVEL 2 LEARNING

Kingston College offers a Pathway programme for young people who did not achieve five GCSEs at school, but who want to get back on track. The course lasts 18 weeks and all students study a BTEC Level 1 Certificate in vocational studies, a BTEC Level 1 Award in personal and social development and functional skills in English and mathematics. For students starting in September there is an opportunity to take GCSE English, GCSE mathematics and GCSE citizenship.

If students pass all the qualifications they can progress to GCSE or a Level 2 Diploma in business.

Richmond upon Thames College

Egerton Road
Twickenham
TW2 7SJ

020 8607 8000

www.rutc.ac.uk

Richmond upon Thames College (RuTC) is one of London's most successful colleges and has recently been judged as 'Good' by Ofsted in all areas of the college. This complements the college's 2017 results, which were the best in over a decade.

Located in Twickenham, RuTC offers first class education and training to 16-18 year olds and adults from the London and Surrey areas and offers a wide range of qualifications including A Levels, Vocational and Technical (BTEC, UAL, CACHE, City and Guilds Diplomas), Apprenticeships, GCSE Pathway, Access to Higher Education and Higher Education.

Specialising in Level 3 qualifications, RuTC delivers Entry Level, Level 1 and Level 2 pathways to enable students to progress. Whether it is university, an apprenticeship or a job, RuTC provides thousands of students each year with the knowledge and skills to get where they want to be.

Apprenticeships offer practical training opportunities in the workplace - giving employees the skills they need to build a career and employers access to committed workers who can fill a skills gap and contribute to the business. The college has the learning facilities and teaching skills needed to respond to the challenges of a modern workforce and meet demanding employer expectations.

Cain is currently working as a brickwork apprentice at DWG Brickwork. This apprenticeship has given Cain the chance to learn and develop new skills such as the construction of a wall and has also enabled him to become more confident with the relevant safety policies. Gaining hands-on experience in the construction industry is incredibly valuable and allows Cain to develop knowledge that he wouldn't necessarily get from studying.

- Cain

Brickwork Apprentice

Charlotte is currently working as a sales support apprentice at Haymarket Media Group. Working with Haymarket Media Group gives apprentices such as Charlotte a fantastic insight into the world of media and the opportunity to work alongside industry experts. Charlotte chose an apprenticeship for her career path as she wanted to continue in education but felt university wasn't for her. Charlotte believes that choosing an apprenticeship with RuTC has given her a better and faster start in life.

- Charlotte

Sales Support Apprentice

ENTRY LEVEL

Richmond upon Thames College offers Entry Level life skills courses, which include personalised learning programmes studying English, mathematics and ICT at your own level. The offer includes a wide range of facilities and resources including small sized groups and additional supported assistance in class. You will also be able to access work experience and a variety of skills to help you progress to further learning, find employment, the possibility of supported internships or apprenticeships, live independently and personal and social development.

Skillwise is a two year, practical-based course for students aged 19 to 21 leaving special schools. Subjects are delivered primarily through practical activities, such as working in the Serious Snacks shop, shopping for and preparing your own lunch at Strathmore Bungalow and horticulture in the Supported Learning Garden.

We also offer an Adult Independent Living, two-year course for adults up to the age of 24 who will have work experience opportunities in the college Serious Snacks Shop, Apple Tree Café and other places like Crane Park Nature Reserve and conservation area and St Mary's University.

LEVEL 1 TO LEVEL 2 LEARNING

Richmond upon Thames College has a range of vocational Level 1 diplomas alongside which you will study an appropriate maths and English qualification. You might also be able to access an award in Learning to Learn, alongside these diplomas, which will help you develop learning skills. The college's work-based programmes are available from Level 1 to 3 in vocational areas such as professional cookery, construction crafts, sport, art and, media childcare, engineering and IT.

ADDITIONAL LEARNING SUPPORT

The college has a team of specialist staff who are experienced in supporting learners with Dyslexia, Dyspraxia, Autism, Attention Deficit (Hyperactivity) Disorder, social, emotional and mental health, sensory and physical needs, moderate and severe learning difficulties.

Once you start your course, the college can support you by providing reasonable adjustments, as recommended by one of their ALS specialists. To benefit from additional support learners can email als.referrals@rutc.ac.uk

For students with education, health and care plans (high needs) please contact Paul Smyth at paul.smyth@rutc.ac.uk

Richmond and Hillcroft Adult and Community College (RHACC)

Parkshot
Richmond TW9 2RE
020 8891 5907
info@rhacc.ac.uk

Hillcroft (Surbiton)
South Bank, Surbiton KT6 6DF
020 8399 2688
info@rhacc.ac.uk

Richmond and Hillcroft Adult and Community College (RHACC) is a large adult education college based in Richmond, offering a range of courses including GCSEs and Access courses.

RHACC offers a personalised one year study programme for 16 to 18 year olds. Study is in an adult environment; most students will be over 19. The 16 to 18 programmes are designed on a case-by-case basis, depending on individual needs and are open to young people with an education, health and care plan. Programmes may be full time (Access) or part-time, depending on personal needs and what career learners hope to follow.

Following the merger of Hillcroft Adult College and Richmond Adult Community College, Hillcroft will now be offering a LLDD (learners with learning difficulties and disabilities) provision.

The new provision includes courses for employability, health and wellbeing, and independent living. Hillcroft is also launching new residential courses ideal for learners who would benefit from more immersive learning.

Class sizes tend to be small, meaning more of the teacher's time. Additional support may be available to learners who have a learning difficulty or disability. Personalised packages will be designed to get learners back on track and support them in achieving the qualifications they need for further education and training, or to prepare them for work.

To arrange a visit to the college to see the facilities, and to talk to an advisor, email iag@racc.ac.uk to make an appointment.

16 to 19 Contact

020 8891 5907 EXT 7929
iag@racc.ac.uk

GCSE courses

GCSEs are highly valued by schools, colleges and employers and are an entry requirement for Access pathways. RHACC offers intensive GCSE courses in English, maths and biology to students looking to take the qualification for the first time or indeed re-take the qualification to improve a grade. Learners will complete the required course work and sit the exams at the end of the academic year during May and/or June 2019. These GCSE courses are free to learners who do not already have a high grade in the subject.

Courses run weekly, term time only, and learners are required to attend all classes and to be punctual. These courses will also have tutorial times added on and additional learning support (ALS) will be available for those learners who need extra support and help with their studies. ALS can take many forms, so please discuss options as appropriate with your tutor.

Before enrolment, all learners will have an interview with a tutor to assess their existing English and maths levels. However, some learners may be able to show evidence of recent Grade Ds in maths and/or English and may be exempt from these initial assessments.

For course dates and open day information please check the website.

www.rhacc.ac.uk

Richmond Art School

Richmond Art School provides contemporary, purpose-built art and design facilities for people of all abilities. Learning from expert tutors you can develop your creativity for your personal enjoyment or your creative career. Courses are mainly held at the Parkshot Campus, but we also run new courses at our partner college, Hillcroft, in Surbiton.

Richmond Business School

Focusing on all areas of business and finance, we provide a range of courses that will really enhance your career. Ranging from short courses to full qualifications, we also offer enterprise courses for business start-ups and growth. Our courses and inspirational teachers provide the motivation and skills to unlock potential and develop the ideas and talent required to start a new business, grow an existing one, find a new career or bring a new skill set in to an existing role. We have a wide range of courses suitable for all budgets, needs and interest levels.

We provide professional qualifications and also training for those who want specific skills right away. If you are looking to gain qualifications and training to support academic progression, professional development and employability, these courses are ideal. Many of our qualification courses are awarded by leading professional bodies such as the Association of Accounting Technicians (AAT), the Chartered Institute of Personal Development (CIPD) and the Chartered Management Institute (CMI).

ADDITIONAL LEARNING SUPPORT

The college has a team of specialist staff who are experienced in supporting learners with Dyslexia, Dyspraxia, Autism, Attention Deficit (Hyperactivity) Disorder, social, emotional and mental health, sensory and physical needs, moderate and severe learning difficulties. Once you start your course, the college can support you by providing reasonable adjustments, as recommended by one of their ALS specialists. Please discuss your needs in the first instance with the course tutor.

Kingston Adult Education

King Charles Centre
Hollyfield Road
Surbiton KT5 9AL

020 8547 6751

www.kingston.gov.uk

Kingston Adult Education (KAE) offers a steps to employment programme (for 16 to 18 year olds) or 19 to 24 with an education, health and care plan (EHCP). The course is designed to give young people employability, personal and social skills as well as work tasters or experience in areas of their career aspirations. Maths and English is covered and learners are able to improve on their qualifications by taking functional skills or GCSE qualifications in these subjects from entry level up to level 2.

The programme can be started at any time throughout the year, attendance is three days a week and learners will study in small well supported classes. Learners will be allocated a personal tutor who will meet with them regularly to review progress and set targets. The course length is determined by individual need and learners are helped into further education, employment or an apprenticeship at the end of the course.

For more information on the steps to employment course, visit the adult education section of the Kingston website or contact Debbie below.

Debbie Adcock Employability Manager

debbie.adcock@kingston.gov.uk

CASE STUDY

Jo joined the steps to employment course midyear with no qualifications. She stayed on the programme for 18 months and achieved Functional Skills level 2 and GCSE in maths and English. She also completed ECDL (IT user skills level 2) and a Diploma in Employability. Jo is currently at Nescot studying Game Design.

Way2Work

The Venue
Heatham House, Whitton Road
Twickenham TW1 1BH

020 8734 3380

www.way2work.org.uk

Way2Work is an apprenticeship training provider offering full-time job opportunities for young people aged 16 to 18 and 19 to 24 with local employers who value and encourage them to achieve their full potential.

The Way2Work Service is funded by the Education and Skills Funding Agency (ESFA) to deliver traineeships, intermediate, advanced and higher apprenticeships on behalf of the London Borough of Richmond upon Thames.

APPRENTICESHIPS

Apprenticeships are available in business and administration, customer service, childcare, ICT, team leading and management, and teaching assistants.

All Way2Work learners are paid at least £165 a week and £150 a week for childcare apprenticeships. Apprentices are involved in a huge variety of job roles within the public and private sectors including: finance, building control, social services, child protection, youth services, electoral services, schools, housing, revenues and benefits, marketing, graphic design, grounds keeping, sales and distribution, human resources, day nurseries, payroll, PA roles and many more.

TRAINEESHIPS

The Way2Work traineeship offer is a bespoke programme, planned around the needs of the young person, but all involving a combination of work experience, functional skills and employability workshops. Some learners also undertake additional qualifications relevant to the sector that they would like a career in.

The programmes generally run for 12 weeks and start at three points during the year. The programmes are aimed at those young people who are keen and motivated to work, but who may need that bit of extra experience or support to obtain an apprenticeship or employment. It will also suit people who would like to try out a role before committing to an apprenticeship.

Way2Work provides real job opportunities that are advertised on its website and also through the National Vacancy Matching Service.

Kelly successfully completed two apprenticeships through Way2Work. She was employed by the London Borough of Richmond as an apprentice administrator for the Youth Service and gained valuable experience supporting the Youth Offending Service, and Targeted Youth Support Team. Following the completion of her Level 3 NVQ in customer service, Kelly fulfilled a life-long ambition by securing a job as a British Airways flight attendant.

- Kelly
Customer Service Apprentice

Over the last five years, success rates have remained above 90%, with at least 50% of local authority apprentices securing permanent employment positions within the Kingston and Richmond boroughs.

If you would like to become a Way2Work apprentice or you would like to enrol on a traineeship, please visit their website or contact Barri Ghai.

Orchard Hill College

17 Beaconsfield Road
New Malden KT3 3HY

020 8942 4607

www.orchardhill.ac.uk

ENTRY LEVEL

Orchard Hill College is a community-based specialist college offering educational opportunities to students over 16 years old who mostly have a wide range of learning difficulties and disabilities or need some additional support to access learning or employment. Orchard Hill College offers multi-disciplinary team (MDT) support on-site from its own team of therapists and nurses who work alongside the curriculum teams to support individual development. Following assessment, students can choose a combination of bespoke courses that provide a 'best fit' for what the learner wants to be doing by the end of the course. The range of students who access Orchard Hill College courses include those with:

- severe, profound and complex needs
- moderate learning difficulties and ESOL
- communication difficulties, including behavioural difficulties
- physical and sensory impairments
- mental health and/or emotional difficulties
- social and communication disorders such as autistic spectrum disorders
- specific medical needs

Orchard Hill runs courses Monday to Thursday 9.30am to 3.30pm and Friday 9.30am to 3.30pm with an opportunity to attend enrichment on Friday afternoons.

TRAINEESHIPS

Orchard Hill College also offers traineeships with meaningful work experience in retail, leisure, hospitals, nurseries and more. The traineeship consists of work preparation classes where they can advise learners on making a CV, how to answer job interviews, and gain functional skills in English and maths. They will attend the college one day a week and a work placement two days a week.

Hawk Training

4th floor, Regal House
70 London Road
Twickenham TW1 3QS

020 8891 0992

www.hawktraining.com

APPRENTICESHIPS

Hawk Training can help young people to find full time employment supported by an apprenticeship programme. Their dedicated recruitment team will work with learners to find the most suitable opportunity.

Hawk Training, in association with the London Academy of Apprenticeships, helps to recruit for the following sectors:

- business and administration
- IT users
- childcare
- warehousing and storage

Learner Employer Advisory Team

Hawks Training have a dedicated Learner Support Team who provide support with social and safeguarding as well as with additional learning needs.

enquiries@hawktraining.com

Smart Training

Becketts Wharf, Lower Teddington Road
Kingston upon Thames, KT1 4ER

020 3700 4294

www.smart-training.com

APPRENTICESHIPS

Smart Training is one of the UK's largest specialist training providers with offices in Hampton Wick (just over Kingston Bridge) and the Docklands, as well as training centres across London and England. Thousands of young people have taken their first step into the world of work with Smart Training and succeeded in their chosen career.

Apprenticeship training is offered at intermediate and advanced levels in a whole range of sectors and the recruitment team can help to find a position in a range of chosen careers. Courses include:

- business administration
- sales
- childcare
- retail
- recruitment
- management
- marketing
- teaching assistant

"An apprenticeship with Smart Training is the perfect way to do the training, as you can gain the work experience at the same time as learning."

- **Gary**
Apprentice Nursery worker

TRAINEESHIPS

A traineeship with Smart Training is the perfect way to progress into the world of work if a young person doesn't have the necessary experience, skills or qualifications. Traineeships – a programme of free tuition and job search support – provide 16 to 24 year olds with the experience they need while building confidence through a work placement and gaining a qualification to prove they are employable.

Those on a traineeship get help with maths and English along with CV and interview skills and achieve a Work Skills Level 2 qualification within six months. They also have access to Smart Training's work search or job finder and can keep any benefits they are entitled to. Bursary help may also be available to help with transport costs, etc.

Smart Training delivers traineeships in a wide range of sectors including:

- business administration
- childcare
- retail
- recruitment
- sales
- teaching

"One of the key things about the traineeship is being able to do voluntary work to gain experience in a workplace so I could put it on my CV for future purposes and also to have the chance to find out what job is best for me. With the support of everyone at Smart Training I am now a sales apprentice and I really enjoy it."

- Lauren
trainee to apprentice

Text: SMART to 80800

Richard Challoner School, St Francis Xavier Centre

Manor Drive North
New Malden KT3 5PE

020 8330 5947

www.richardchalloner.com

Opened in September 2016, the St Francis Xavier Centre is a new specialist resourced provision for post 16 students with moderate learning difficulties (MLD). You will be able to study a range of Entry Level qualifications up to Level 1 in English, maths and ICT as well as a course in life skills. In addition, you will have the opportunity to develop your skills across a range of practical subject areas. Links between the provision and the mainstream sixth form are fostered to ensure that pupils feel part of the wider school community at Richard Challoner School. You will be expected to enrol for two consecutive, academic years (Year 12 and Year 13) and have the chance to develop links with other local colleges in your second year.

Admission is open to students who:

- have an education, health and care plan (EHCP)
- have a primary need which is considered to be a moderate learning difficulty or similar needs
- are currently in Year 11 and seeking a placement for next academic year

For more information, contact the school at rcb@challoner.kingston.sch.uk

Post-16 providers in neighbouring areas

The following pages provide a listing of providers² outside Kingston and Richmond boroughs that offer learning provision and support from Entry Level up to and including Level 2. The list represents some of the organisations that Achieving for Children works with to help you progress. For details on a specific programme, please visit the provider's website.

² We welcome details of other providers' learning offer aimed at young people. If you are a provider that can support young people in Kingston and Richmond, please email details of your provision to alex.saxby@achievingforchildren.org.uk

BROOKLANDS COLLEGE

Weybridge Campus
Heath Road
Weybridge KT13 8TT

01932 797 797

www.brooklands.ac.uk info@brooklands.ac.uk

Brooklands College is a large general further education college with its main campus situated close to Weybridge in Surrey. Learners can access Entry Level courses offering pathways to employment or independent living. There is also a wide range of vocational programmes available at Levels 1 and 2.

JACE TRAINING

Graylaw House
42-54 Manor Road
Wallington SM6 0AB

020 8773 4532

www.jace-training.co.uk info@jace-training.co.uk

JACE Training has training centres across London and the south east of England, and are based in Wallington in the London Borough of Sutton.

JACE Training offers intermediate and advanced apprenticeships, and traineeships. It also offers 14 to 16 learning, vocational qualifications at Levels 1 and 2, workshops on individual subjects, short courses and bespoke learning.

For more information about any of their qualifications or training centres, send them an email or give them a call.

SUTTON AND DISTRICT TRAINING

240-244 High Street
Sutton SM1 1PA

020 8687 5225

www.suttondistrict.co.uk

Sutton and District Training is located in the London Borough of Sutton. It operates from one large site in Sutton Town Centre, which has very good transport links. It offers a roll on/roll off system which allows enrolment throughout the year.

Sutton and District Training provides foundation learning programmes with vocational qualifications in construction, hair and beauty and sales and marketing. Functional skills are provided to Level 2.

M.I.T SKILLS

12-13 Camphill Industrial Estate
West Byfleet KT14 6EW

01932 341416

www.mitskills.com

Its apprenticeships range from industrial and construction to hairdressing and motor vehicle. They also offer a young apprenticeship programme to 14 to 16 year olds leading to a diploma in your chosen sector which is equivalent to four GCSEs grade A* to C or equivalent.

COLLEGE OF BEAUTY THERAPY

47 Great Marlborough Street, Soho
London W1F 7JP

020 7208 1300

www.lcbt.co.uk info@lcbt.co.uk

LCBT is a specialist college, based in central London, offering funded courses in beauty, media make-up and fitness for 16 to 18 year olds. To enrol on a course starting in April, call or sign up on their website to attend an open day. It offers apprenticeship training in:

- business administration
- customer service
- team leading and management
- beauty, hair and nails
- retail
- hospitality
- health and fitness

NESCOT

Reigate Road
Epsom KT17 3DS

020 8394 3038

www.Nescot.ac.uk

info@Nescot.ac.uk

Epsom's college of further and higher education offers full and part-time vocational courses and apprenticeships to students across Surrey and Greater London. Its courses range from games design and performing arts to public services and animal studies. Nescot has a wide range of facilities and services, from osteopathy and sports therapy to hair and beauty clinics and an on-site nursery rated 'Good' by Ofsted (2016).

Supported Learning

Nescot has a preparation for life and work department for learners with mild to moderate learning difficulties and/or disabilities, and those who have no formal qualifications or are not in formal education.

There are many vocational courses on offer from Entry Level 1 to Entry Level 3 which are all designed to help prepare you for employment through work experience and work related activities. The staff will support you with a personalised learning programme to help learners achieve their potential with additional lessons in functional skills should you need it. Many of the students get the opportunity to work in one of Nescot's social enterprises, including the student-run café and shop and in the weekly café organised by students in St John's and St Mary's Church Halls in Ewell.

MERTON COLLEGE

London Road
Morden S4 5QX

020 8918 7777

merton.ac.uk

Merton College is a further education college in south west London and is part of the wider South Thames Colleges Group. The college specialises in getting students ready for the world of work or higher education and offers subjects such as business and computing, hair and beauty, construction, travel and tourism, and more. English and access courses are also available, as well as a wide selection of leisure and taster courses ranging from Tai Chi to CV workshops.

SUPPORTED LEARNING

Merton College has a Skills for Work Life programme for learners with moderate learning difficulties, or learners with autistic spectrum disorder and complex needs in the Aurora Centre. The programme is individually tailored to 16 to 25 year olds who want to develop practical skills for personal and working life and want to learn in a friendly and supportive environment.

There is a wide choice of subjects on offer, such as catering, drama, engineering and horticulture. Alongside these courses, personal skills can also be developed, such as money management and independent living, help with interview skills, CV writing and other skills to help prepare you for work. English, maths and IT skills can also be developed, leading towards a nationally recognised qualification. The college has limited places so you will need to apply early. Courses start in September.

STRODE'S COLLEGE

High Street
Egham TW20 9DR

01784 437506

www.strodes.ac.uk

admissions@strodes.ac.uk

Strode's College is a small/medium sized sixth form college with around 1,100 students aged 16 to 18. The college has excellent transport links to northwest Surrey, Richmond, Slough, Windsor and west London.

There is a wide range of A Level courses and a full range of Level 3 BTECs. Strode's College also offers intermediate (Level 2) courses, as well as a variety of enrichment courses.

The college has an Intermediate Level Pathway designed for students who have not achieved four or more GCSEs at Grade 4 to 9 (A*-C) or above and prefer a vocational route. You will need to have achieved at least three Grade 3s (D) and one Grade 2 (E) grade as well as English and maths at Grade 3 at Key Stage 4. You will be able to study BTEC Level 2 courses which are practical and work related and are assessed through assignments. These courses are studied over a year and you can choose to study between a combination of two BTEC Certificates or one BTEC certificate and two GCSEs.

SUPPORTED LEARNING

Strode's College has a Support 4 Learning team which supports students with learning needs or disabilities. They provide expert help with transition from school or home learning to college. The team is based in the learning centre which offers a quiet, calm space and can support students with dyslexia and dyspraxia, support time management, revision skills, essay writing support and assistive technology. The team can also help students with exam access and arrangements.

If you would like further information about how the college can help you as an individual, please contact the Support 4 Learning team.

WEST THAMES COLLEGE

London Road
Isleworth TW7 4HS

020 9326 2054

www.west-thames.ac.uk

West Thames College is a medium-sized college of further and higher education in the borough of Hounslow. It has a main campus in Isleworth and a smaller skills centre in Feltham. The college offers a wide range of courses at A Levels and specialist vocational courses up to higher education level such as BTECs, NVQs, City & Guilds, Foundation Degrees and HNDs.

SUPPORTED LEARNING

West Thames College also offers support to learners with a disability or learning difficulty. Learners can study a wide range of vocational Entry Level 1 diplomas to help you develop your communication, numeracy and interpersonal skills. Courses last for one year, with progression on to training or employment, Project Search at GlaxoSmithKline or a supported internship. For more information about the supported learning courses available contact the Admissions Team on 020 8326 2020 or visit their website.

Young people who are in care or are care leaver can ask their social workers, foster carer or key worker to help them complete a pre entry information form to let the college know about any additional needs so they can put the right support in place.

For further information, contact Sharon Honey on the details below.

- Additional support in the classroom
- Special equipment
- A quiet area
- A mentor or an advocate
- Help with disciplinary issues

For learners who wish to continue their studies, there is help with applications for further courses at the college or at university including help with student finance applications.

Sharon Honey

Stepping stones to employment

The following section lists various projects and sources of help you can access in Kingston, Richmond and areas nearby to help you move into learning and/or employment.

SPEAR

Spear offers a six week coaching and highly interactive programme to help 16 to 24 year olds who are not in education, employment or training to get into work. You would attend Monday to Friday from 2 to 5pm and the programme runs six times a year. You would be able to develop your confidence and motivation and improve your communications skills and also gain a customer service qualification. Following this you would get help with CVs and interview skills and support to prepare you for job-skills matching and application support with intensive into-work support.

In addition you have personalised mentoring to plan your individual needs and career progression.

The support I received at Spear was invaluable and helped me change the way I think. They put me forward for an administration role in a small recruitment agency. After three months, I was promoted. I would never have found this job without the support of Spear and would still be really frustrated. Now my future looks bright and I know where I'm heading!

- Niyet

Spear has centres across six different sites in London and the surrounding area. Visit www.resurgo-spear.org for more information and or contact them at the following centres below.

NCS, THE CHALLENGE

www.the-challenge.org

NCS with The Challenge is a once-in-a-lifetime opportunity for 15 to 17 year olds in England, that helps build your skills for work and life, while you take on new challenges. NCS brings young people together from all different backgrounds for a common purpose and, by offering new experiences, gives them the chance to learn new skills and meet new people. This helps young people discover their talents and realise their potential.

The programme is split into three parts.

Part 1: Adventure

Participants face a personal challenge learning to overcome their fears, develop confidence in their teams on an action-packed residential. This could involve taking part in rural areas of the UK in different activities like embracing the outdoors.

Part 2: Skills

Participants will be expected to take on a team challenge, mastering new skills and creating a project together to showcase to friends and family. The skills could involve either music, art, media, photography and sport.

Part 3: Social action

Participants will be partnered up with a local charity, raising awareness or money for a said charity. They will also need to come up with an idea and pitch their ideas to a panel made up of local MPs and business owners.

NCS with The Challenge runs in London and Surrey over the summer and in the autumn, though young people can expect to travel all over the UK for their challenges. In previous years young people have travelled to locations such as Scotland, Cumbria, Kent and Wales for Part 1 of the programme.

Parts 2 and 3 are usually located nearer to the young person's local area, within travelling distance from their home or school.

NCS with the Challenge programmes have different start dates throughout the year, with programmes running in the summer and during October half term. Check the website for the various start dates in summer.

The NCS programme, and in particular the skills and experiences gained by NCS graduates, is now recognised positively by employers and educational institutions alike. To sign up visit their website at www.bookings.the-challenge.org.

For start dates and other information about the programme check out their website or call them on 020 3542 2400.

NCS HEADSTART

www.the-challenge.org/our-programmes/headstart

If you would like to gain new skills for work and life NCS is running the HeadStart programme which aims to help young people find volunteering opportunities that fit their interests and availability. Once a young person has completed at least 16 hours of volunteering they will be guaranteed a job interview with a leading employer, a completion certificate to use on a CV, as well as the experience and skills gained on the programme.

HITZ PROGRAMME WITH HARLEQUIN RUGBY CLUB

The Harlequins Hitz Programme is a fully funded study programme and is aimed at young people with low qualifications. Learners must be aged 16 to 19 and learners with SEND will also be considered up to age 24 on a case-by-case basis. There are no formal entry requirements. You can work towards:

- Functional Skills English and maths (Accredited)
- BTEC L1 Sport and Active Leisure
- BTEC Award in Work Skills (36 credits+)
- Emergency First Aid Course. (1 Day)
- BTEC in Work Skills and Sport and Leisure are delivered through both practical and classroom based sessions and assessment is carried through the completion of portfolios.

You would also have access to a wide range of enrichment activities potentially including:

- Participating in rugby and a range of sports.
- Adventure activity days and courses. and volunteering in the local community and on match days
- Industry days and guest speakers
- Land Rover Experience Days
- Attending Aviva Premiership Rugby Final, professional rugby match days.

To sign up for this programme please contact Sharon Pratt.

Parents and carers

Part of growing up is making smart subject and career choices. For any teenager, this can be a challenge and your child will receive a lot of support from their school to help them choose well. Schools have a statutory duty to secure independent careers advice and guidance for all Year 8 to 13 pupils, which will help them to develop high aspirations and understand where different choices can take them in the future. Advice must be independent and impartial and may include online packages tailored to supporting young people.

Talk to your school's careers adviser for advice and guidance on a broad range of careers and to weigh up the pros and cons of different options.

LOCAL OFFER WEBSITE

For information on local services and support available for families with children and young people aged 0 to 25 years with special educational needs or disabilities, visit AfC's Local Offer website (www.afcinfo.org.uk/local_offer).

The website contains information on educational opportunities for young people (of all ages) as well as on local provision designed to help you into employment.

IDENTIFYING YOUNG PEOPLE WHO MAY NEED SUPPORT

AfC has a statutory duty to provide education and training to all 16 to 18 year olds. We also support young people to find a suitable place in a school, college or in work-based learning, or part-time education where the young person is combining education with full-time employment or voluntary work.

We work with schools and colleges to determine which young people are participating, however, sometimes we may need to track young people to find out their destination. We will always try to contact you by phone but, where we cannot, we may send a member of the team to visit. Please rest assured that whatever information you provide to us is confidential and we would not pass it on to other services without your consent.

RE-ENGAGEMENT PROVISION

If your child does not have a place in learning for September or is not ready for full time education or employment, we can help prepare them. Visit the support into education, employment or training section on page 54 for more information.

If you are concerned because your child is not in education, employment or training and would like some advice, please call 020 8547 5408 or email 14-19@achievingforchildren.org.uk

PRACTICAL HELP WITH THEIR COURSE

Colleges and other providers offer financial help to young people who need support to continue in education and training post-16. If your child needs help with meals, books or other course-related costs, you should talk to the learning provider to see if they are eligible under the 16 to 19 bursary scheme. For more information on the bursary fund, visit the website below.

www.gov.uk/1619-bursary-fund/overview

Bus and tram travel for Londoners aged 16 to 17³ on 31 August is free if they live in a London borough and are in full time education.

For more information visit Transport for London's website and search for Zip Oyster photocard.

www.tfl.gov.uk

³ For 18 year olds, bus and tram travel is free if they are in full-time education
