

BEAM Service Delivery Overview 2018/19 (draft)

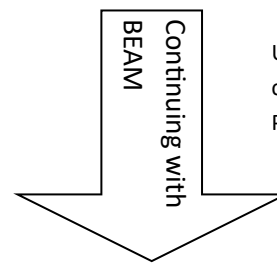

BEAM Starter Package

- **BEAM Initial Visit to home**
BEAM facilitator and manager visit to home. Gather information.
- **Two x 1 hour sessions per week xfor a total of 20 sessions** (approx. 10 weeks).
Sessions delivered in the home and occasionally the Nursery. In the home, parents are expected to be present in the sessions.
Reviewed using the BEAM service delivery criteria.

Offers of service after April 2019 for children transitioning to school will automatically enter into BEAM Transition Package.

For children who are new to the service and have attended a specialist setting or have deferred please contact BEAM manager to discuss.

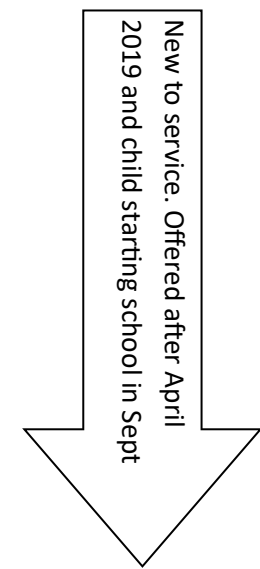

Use service delivery criteria to determine Package A or B.

Package A

- ⇒ **1 x weekly home visit (continue with targets and signpost to services)**
- ⇒ Half termly nursery visits
- ⇒ Access to Autism Preschool Parent Programme (8 weeks) and BEAM parent groups (termly)

Package B

- ⇒ **1 x monthly consolidation home visit (monitor and signpost to services)**
- ⇒ Half termly nursery visits
- ⇒ Access to Autism Preschool Parent Programme (8 weeks) and BEAM parent groups (termly)

- [Nursery support](#): Minimum of half termly visits to the nursery to support with strategies and setting/reviewing targets.
- Report to support application for EHCP.

Service Delivery Criteria for continued service delivery

Highlight a statement in each row that is most relevant to the child you are working with.

| A | B |
|---|---|
| i. Complex social communication and emotional regulation needs related to diagnosis of Autism, including additional needs which could be related to Sensory processing, self care and/or other additional diagnoses. | i. Clear social communication and emotional regulation needs related to diagnosis of Autism. |
| ii. Parents continue to require considerable support to help manage their child's challenging behaviour. | ii. Parents are implementing support provided and child is receptive to the approach being adopted. |
| iii. Child's rate of progress towards outcomes continues to be a key concern. | iii. Child has made progress towards agreed goals / outcomes. |
| iv. Still presenting with significant challenges with transitions and changes in routine. | iv. Autism strategies are facilitating the child's responses to transitions and with appropriate structure is beginning to manage these periods. |
| v. Strategies for supporting emotional regulation are not being implemented consistently or successfully. The child is displaying extreme emotional dis-regulation including causing harm to self and/or others. | v. Strategies for supporting emotional regulation are having a positive impact on the child's behavior and ability to cope. |
| Vi. On-going social care involvement | Vi. No social care involvement |
| Vii. In order to continue embedding strategies, continued support is required from a facilitator in modelling and supporting parents/carer. | Vii. Resources and strategies are being transferred and embedded into daily life. Continuation of strategies can be delivered by parents/carers. |
