

Special Educational Needs and Disabilities Trend Report

Inclusion Summit April 2018

Local Context

Health Information - Source CCG Locality Profile 2017

General Population – Registered GP Population

Age Group	Male	Female	People
0-4	4,358	4,153	8,511
5-9	4,902	4,689	9,591
10-14	4,850	4,165	9,015
15-19	4,984	4,380	9,364
20-24	4,558	5,638	10,196
Total:	23,652	23,025	46,677

Twenty three percent of the CCGs' total registered population are under 19.

There were 1,501 live births in the CCG in 2015.

In 2016/17, there were 482 admissions per 100,000 population for lower respiratory tract infection in the CCG, which was similar to the national figure.

There were 212 unplanned admissions per 100,000 population for asthma, diabetes and epilepsy in the CCG, which was a lower rate than the national figure.

1,021 pre-school children (aged 2 to 5) and 1,655 children school-age children (aged 5 to 16) are estimated to have a mental health disorder.

1,000 young people (aged 16 to 19) are estimated to have a neurotic disorder.

The infant mortality rate in the borough during 2014/16 was 3.8 per 1,000 live births, which was similar to the national rate of 3.9.

Mental Health and Wellbeing

Estimated number of children with specific mental health disorders in Windsor, Ascot and Maidenhead CCG by age group and sex

Conduct disorders				Emotional disorders			
	5 to 10 year olds	11 to 16 year olds	Total number		5 to 10 year olds	11 to 16 year olds	Total number
Boys	315	355	670	Boys	95	210	305
Girls	120	175	295	Girls	110	230	340
Total	435	530	965	Total	205	440	645

Hyperkinetic disorders				Less common disorders			
	5 to 10 year olds	11 to 16 year olds	Total number		5 to 10 year olds	11 to 16 year olds	Total number
Boys	125	110	230	Boys	105	90	195
Girls	25	25	50	Girls	35	30	65
Total	150	130	280	Total	140	120	260

Total	630	105	130	100	70	45	1,000

Wellbeing – 2014/ 15 survey of 15 year olds

	National	RBWM
Wellbeing Score	47.6	48.7
% low life satisfaction	13.70%	10.80%
Been bullied	55.00%	53.90%
Perpetrated bullying	10.10%	11.60%

CAMHS

Hospital admissions for mental ill-health in children and young people

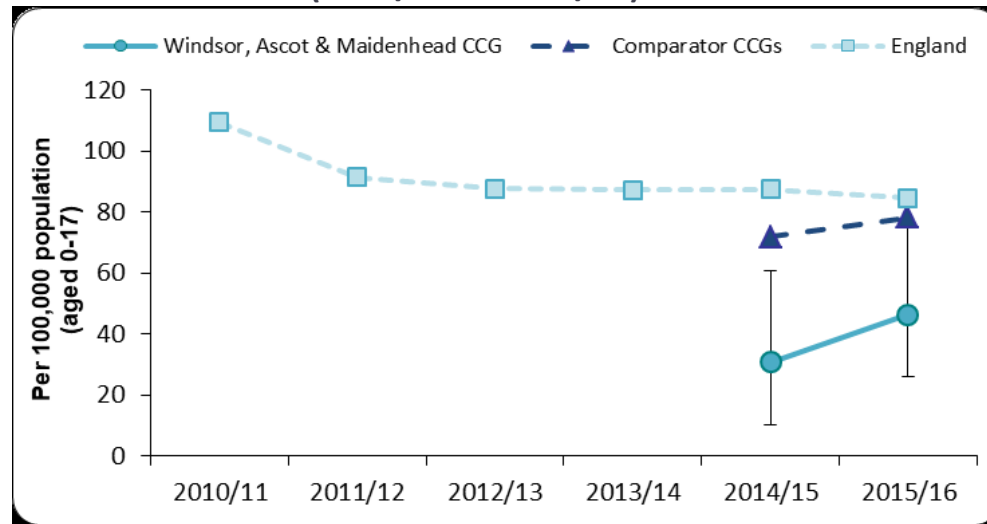

In 2015/16, children aged 0 to 17 had 30 hospital admissions for mental health disorders in Windsor, Ascot & Maidenhead CCG. This was a rate of 46 per 100,000 population, which is significantly lower than the national rate of 85 per 100,000 population. Self-harming is much more common in children and young people who have mental health disorders, with approximately 10% of 15 to 16 year olds having self-harmed.

In 2015/16, there were 81 hospital admissions for self-harm in Windsor, Ascot & Maidenhead CCG at a rate of 283 per 100,000 population. This was significantly better than the England rate of 423 per 100,000 population.

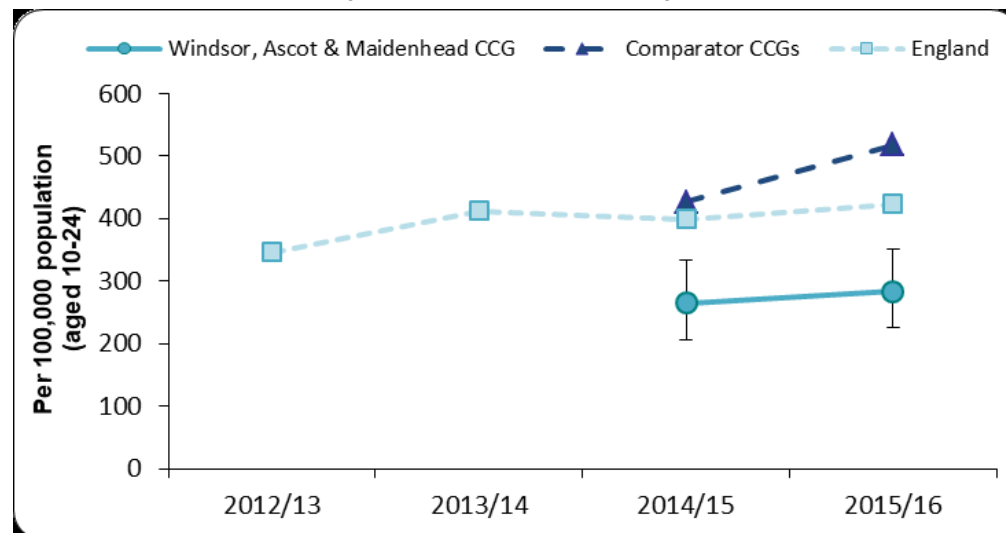

It is important to note that hospital admissions do not show the full extent of self-harm. The majority of young people who do self-harm will either not harm themselves in a way that needs medical treatment or they will deal with it themselves.

Trend data is not available at a CCG level for both of these indicators, as they were first published in 2014/15.

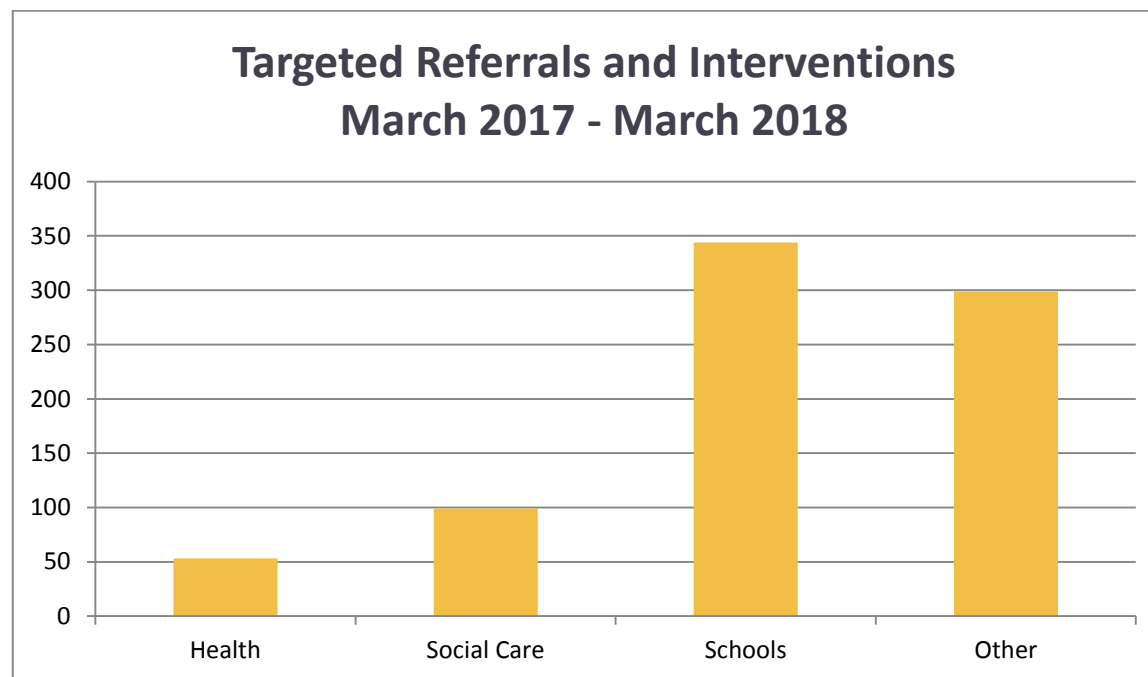

**Hospital admissions for mental health conditions per 100,000 population aged 0 to 17
(2010/11 to 2015/16)**

**Hospital admissions as a result of self-harm per 100,000 population aged 10 to 24 – directly standardised rate
(2012/13 to 2015/16)**

Early Help Services

The total number of referrals in the periods March 2017 – March 2018 was 789.
