Achieving for Children (AfC) delivers services to children, young people and their families across Kingston and Richmond. As AfC's 14-19 Team, we understand what a big transition point you may face after doing your GCSEs. This summary can help you with this important step. It sets out the options available to you locally – whether in learning or apprenticeships, and provides links for you to access further information.

Introduction

Involve your parents or carers

Your parents want the best for you, but things have changed a lot since they went to school. Help them to understand how they can help you and what support is available. Show them the parents' and carers' section at the end of this booklet

You may be eligible for financial help post 16

Most young people choose to continue their education or training post 16. You may be able to get financial help. See: Practical help with their course on page 59.

Continuing your education or training does not mean you have to stay at school

Whatever you have achieved in school, there is a post-16 option to suit you. Staying on at school is one option. But you could also continue your education or training at a college, with a training provider or in the workplace.

Education and training are vital to your future success

The number of jobs for poorly qualified, unskilled people is shrinking quickly. You need knowledge, skills and qualifications if you want to get on in life. And that means continuing your education or training.

WHAT ARE MY CHOICES?

To boost your future earning power and improve your job prospects, you need to have the right knowledge, skills and qualifications. There are different post-16 options to gain these, such as:

- full time education, such as school or college
- an apprenticeship
- part-time education or training if you are employed, self-employed or volunteering for 20 hours or more a week

Advice and guidance on the full range of options open to you is available through your school, as well as the National Careers Service helpline.

Call them on the number below or visit

www.nationalcareersservice.direct.gov.uk

Quick start guide

GCSES HAVE CHANGED

GCSE grades have changed. Instead of the grade A, B, C system, they are now graded on a 9 to 1 scale, where Grade 9 is high and Grade 1 is low. A Grade 4 is a 'low' C and it is expected that broadly the same number of learners will achieve a Grade 4 and above as previously achieved a Grade C and above.

For legacy GCSEs, the following table shows the score scales for GCSE grades A* to G.

Entrance criteria for Level 3 courses will differ depending on the subject, but generally you will need a Grade 4 or above in English and maths and usually a higher grade (6 or 7) in the subject you wish to study in Year 12.

Check individual course details on college websites to clarify what qualifications you will need.

For further information please visit:

newgcse.campaign.gov.uk

4	C
3	D
2	E
1	F
	G
U	U

Levels of learning

Level 3

You will need to have completed your GCSEs with a minimum of Level 3, 4 or 5, A* to C or merit grades or equivalent on your Level 2 course with a Grade 4 or 5 in English or maths depending on your chosen course.

Level 2

A full Level 2 is made up of five GCSEs grade 9 to 4 or equivalents such as BTEC awards. English and maths GCSEs at grade 4 or above will give wider access to employment and training opportunities. Some providers allow you to retake GCSEs alongside your Level 3 learning.

Level 1

A Level 1 programme might offer a stepping stone to help you develop your skills and knowledge a bit more to achieve a Level 2. To enrol on to a Level 1 programme, you will usually need GCSEs at grade 2-1 or have successfully completed an Entry Level.

Entry Level

This is your first step if you have no GCSEs or formal qualifications and need additional support to progress.

Progression routes

Level 4	University		Higher apprenticeship	
Level 3	A Levels		Advanced apprenticeship	
Level 2	GCSEs (9 to 4)	Skills for Life qualifications	Vocational qualifications	Intermediate apprenticeship
Level 1	GCSEs (4 to 1)	Skills for Life qualifications	Vocational qualifications	
Entry Level		Skills for life qualifications	Vocational qualifications	

Study programmes

AfC wants to ensure that all its learners are helped to overcome barriers to access and learning.

Entry Level

Entry Level courses are designed for people with few or no qualifications who need additional support to progress. Programmes are usually delivered in small groups with lots of practical activities designed to help you improve your reading, writing and IT skills. Entry Level awards (below Level 1) are usually not stand alone, but are offered as part of a wider package of qualifications – contact the learning provider to find out more about the whole programme. You will also see that some qualifications are also offered at Level 2 – offering you an opportunity for course progression. It is good to note that entry level courses are split into three levels: Entry Levels 1, 2 and 3.

Level 1 learning

If you think you might need to develop your skills and knowledge a bit more to achieve a Level 2, a Level 1 programme might offer a stepping stone. To enrol on to a Level 1 programme, you will probably need GCSEs at grades E to G or equivalent, or to have successfully completed an Entry Level programme in a similar subject. There is a wide range of Level 1 programmes available through our providers in Kingston and Richmond that include qualifications in numeracy and literacy, employability skills and the opportunity to learn more about different vocational areas.

Some learning providers offer places on learning courses at any time during the year, as long as there is space on the course. It is worth bearing this in mind if your plans do not turn out as you had hoped, or if you need to change your direction mid-year.

What you can do next: On completing the course you can receive help from the provider to plan your future and choose options that fit your needs. This could lead to qualifications like GCSEs or other Level 2 qualifications. You can also prepare for supported employment and/or independent living

Level 2 learning

Level 2 qualifications provide the entry point to many jobs or Level 3 courses. A full Level 2 is made up of five GCSEs grade 9 to 4 or equivalents, such as BTEC awards. If you have achieved a grade 4 to 1 at GCSE, then you can usually move on to a vocational or work-related course at Level 2, although check the entry requirements for individual courses. Some providers allow you to retake GCSEs alongside your Level 3 learning. See the provider directory (pages 26 to 52) for more information or email: 14-19@achievingforchildren.org.uk.

Apprenticeship option: You can also gain a Level 2 qualification by enrolling on to a Level 2 apprenticeship programme – an intermediate apprenticeship. Apprenticeships provide alternative routes to education and you will gain valuable experience of the workplace while being employed and at the same time working towards an NVQ Level 2 qualification which is equivalent to five GCSEs 9 to 4. For more information about apprenticeships, visit pages 20 to 23.

What you can do next: A Level 2 qualification enables you to progress on to a Level 3 programme or to enter employment in certain sectors.

Level 3 learning

A full Level 3 is equivalent to two or more A Levels or an NVQ Level 3. You will need Level 3 qualifications to get on to most university courses with a Grade 4 or above in GCSE English and mathematics.

A Level courses take two years to complete and you will usually study three subjects. You should visit the various websites of school sixth forms, sixth form colleges and further education colleges to see which A Levels are on offer.

Apprenticeship option: If classroom-based learning is not for you, you could sign up for a Level 3 advanced apprenticeship. Apprenticeships provide experience of the workplace while being employed and at the same time working towards an NVQ Level 3 qualification.

For more information on courses in your area check the UCAS Progress website at www.ucasprogress.com

What you can do next: A Levels are intended to prepare you for higher education or employment. There are various combinations that are preferred by universities that include certain subjects, such as English, history or languages, which are known as 'facilitating' subjects. And if you would like to get into a particular field or have a career in mind, be sure to research the entry requirements as some require specific subjects and grades.

Vocational qualifications from entry Level to Level 3

Vocational qualifications such as BTECs, City & Guilds and OCR Nationals are work-related. They can vary by level (from Entry Level to Level 3) and come in different sizes with an Award being the smallest, then a Certificate and the largest being a Diploma.

Vocational qualifications can cover a broad industry sector or can be specialised to a specific part of a sector. Vocational qualifications can take between one and two years to complete with those aged 16 to 19 normally studying for vocational qualifications at Entry Level to Level 3.

Skills for Life qualifications

Skills for Life (sometimes referred to as Basic Skills qualifications) are designed to help learners develop their reading, writing, maths and ICT skills. There is also a Skills for Life qualification in English for Speakers of Other Languages (ESOL).

They are available for those learners who are over 16 years of age, have left compulsory full-time education and do not have an up-to-date English or maths qualification at Level 2 (such as a GCSE).

Skills for Life qualifications are available at Entry Level to Level 2.

The options at a glance

Traineeships

Traineeships are aimed at young people aged 16 to 18 (or up to 24 if you have learning difficulties) who are not in a job, but who want to work and who need help in developing work-based skills. The programme can be shaped to your needs, but will include classroom-based learning in small groups plus an extended work placement in a vocational area that matches your skills and abilities.

Traineeships can last up to six months. If you do not have English and/or maths GCSE at grade 4 you can still apply for a traineeship as you will have the opportunity to gain work-based qualifications in these subjects called functional skills.

Apprenticeships

Apprenticeships offer structured training in the workplace and are available at four levels.

All apprentices are employed for at least 30 hours a week and are paid a salary, with many apprentices now earning around £170 a week, and on the higher scale up to £250 a week.

Getting an apprenticeship

The Government has changed the way apprenticeships work and has put employers firmly in the driving seat.

Entry requirements for apprenticeships vary according to which sector you are interested in, use the link below to find out more:

tinyurl.com/furtherkills

There can be quite fierce competition for apprenticeship places with employers, so you will need to show that you are committed to taking up a place and aware of your own responsibilities to yourself and to the employer.

If you need additional help, your learning provider and your employer have a duty to ensure you are supported as necessary during your apprenticeship.

There are different levels of apprenticeships available:

Intermediate apprenticeships (Level 2)

An intermediate apprenticeship is equivalent to five GCSEs at Grade 4. On completion you will gain an NVQ Level 2. This provides the skills required for your chosen career and allows entry to an advanced apprenticeship.

Advanced apprenticeships (Level 3)

An advanced apprenticeship is equivalent to two A Level passes. You will work towards an NVQ Level 3. To start this programme, you should ideally have five GCSEs at Grade 4 or above or equivalent or have completed an intermediate apprenticeship.

Progression from Level 3 advanced apprenticeships can lead to higher and/or degree apprenticeships from Levels 4 to 7.

You will probably attend college or a learning provider for at least one day a week to build up your knowledge and skills. The time it takes to complete an apprenticeship depends on the sector you are working in and the type of qualifications required, although at intermediate level you would probably expect to achieve it within two years.

Supported internships

If you have a learning difficulty or disability, a supported internship will provide you with skills for work through learning in the workplace. Internships normally last for a year and include unpaid work placements of at least six months. The idea is that you are able to move into paid employment at the end of your internship. You will complete your own study programme which includes the chance to study for qualifications, if suitable, and English and maths to an appropriate level.

You can do a supported internship through one of our further education colleges and get work with a local employer. You will need to have an education, health and care plan (EHCP) to qualify.

Follow the links below to find out more about supported Internships on offer locally:

info@rhacc.ac.uk

Hillcroft (Surbiton)
South Bank, Surbiton KT6 6DF

020 8399 2688

info@rhacc.ac.uk

Richmond and Hillcroft Adult and Community College (RHACC) is a large adult education college based in Richmond, offering a range of courses including GCSEs and Access courses.

RHACC offers a personalised one year study programme for 16 to 18 year olds. Study is in an adult environment; most students will be over 19. Programmes for 16 to 18 year olds may be full or part time and are designed to meet individual needs.

GCSE courses

RHACC offers intensive GCSE courses in English, maths and biology to students looking to take the qualification for the first time or re-take the qualification to improve a grade. These courses will have tutorial times built in. For course dates and open day information please check the website.

www.rhacc.ac.uk

There are also courses available for employability, health and wellbeing, and independent living. For further information please email:

iag@rhacc.ac.uk

020 8891 5907 EXT 7929

Steps to employment (Kingston Adult Education)

King Charles Centre
Hollyfield Road
Surbiton KT5 9AL

020 8547 6751

www.kingston.gov.uk

Kingston Adult Education (KAE) offers a steps to employment programme for 16 to 18 year olds (or 19 to 24 with an education, health and care plan). The course is designed to give young people employability, personal and social skills as well as work tasters. Maths and English are covered and learners are able to improve on their qualifications by taking functional skills or GCSE qualifications in these subjects from entry level up to Level 2.

Attendance on the programme is three days a week and learners will study in small well supported classes. Learners will be allocated a personal tutor who will meet with them regularly to review progress and set targets. The course length is determined by individual need and learners are helped into further education, employment or an apprenticeship at the end of the course.

The next steps programme will start in September 2019. For more information visit the adult education section of the Kingston website or contact Debbie below.

Way2Work

The Venue
Heatham House, Whitton Road
Twickenham TW1 1BH

020 8734 3380

www.way2work.org.uk

Way2Work is an apprenticeship training provider offering full-time job opportunities for young people aged 16 to 18 and 19 to 24 with local employers.

Traineeships

The Way2Work traineeship offer is a bespoke programme involving work experience, functional skills and employability workshops. Some learners also undertake additional qualifications relevant to the sector that they would like a career in. The programmes generally run for 12 weeks and start at three points during the year.

Apprenticeships

Apprenticeships are available in:

- business and administration
- customer service
- Childcare
- ICT
- team leading and management
- teaching assistants

Across a wide variety of job roles within the public and private sectors.

If you would like to become a Way2Work apprentice or you would like to enrol on a traineeship, please visit their website or contact Barri Ghai.

Apprenticeships

Hawk Training can help young people to find full time employment supported by an apprenticeship programme. Their dedicated recruitment team will work with learners to find the most suitable opportunity.

Hawk Training, in association with the London Academy of Apprenticeships, helps to recruit for the following sectors:

- business and administration
- warehousing and storage
- childcare
- IT users

Learner Employer Advisory Team

Hawk Training's dedicated Learner Support Team provides support with social and safeguarding as well as with additional learning needs.

Orchard Hill College

17 Beaconsfield Road
New Malden KT3 3HY

020 8942 4607

www.orchardhill.ac.uk

Entry Level

Orchard Hill College is a community-based specialist college offering educational opportunities to students over 16 years old with an education, health and care plan. Orchard Hill College offers multi-disciplinary team (MDT) support on-site from its own team of therapists and nurses who work alongside the curriculum teams to support individual development.

Traineeships

Orchard Hill College also offers traineeships with meaningful work experience in retail, leisure, hospitals, nurseries and more. The traineeship consists of work preparation classes where learners can develop a CV and successful interview techniques. Learners can also gain functional skills in English and maths. They will attend the college one day a week and a work placement two days a week.

Xavier Centre (Richard Challoner School)

Manor Drive North
New Malden
Surrey
KT3 5PE

020 8330 5947

www.richardchalloner.com

Opened in September 2016, the Xavier Centre offers co-educational specialist provision for post-16 students with moderate learning difficulties (MLD) who have an education, health and care plan. You will be able to study a range of Entry Level qualifications up to Level 1 in English, maths and ICT as well as life skills. In addition, you will have the opportunity to develop your skills across a range of practical subject areas. Links with the mainstream sixth form are fostered so that pupils feel part of the wider school community. You will be expected to enrol for two consecutive, academic years (Year 12 and Year 13) and

Post-16 providers in neighbouring areas

The following pages provide a listing of providers outside Kingston and Richmond boroughs that offer learning provision and support from Entry Level up to and including Level 2. The list represents some of the organisations that Achieving for Children works with to help you progress. For details on a specific programme, please visit the provider's website.

Brooklands College

Weybridge Campus
Heath Road
Weybridge
KT13 8TT

01932 797 797

www.brooklands.ac.uk info@brooklands.ac.uk

Brooklands College is a large general further education college with its main campus situated close to Weybridge in Surrey. Learners can access Entry Level courses offering pathways to employment or independent living. There is also a wide range of vocational programmes available at Levels 1 and 2.

JACE Training

Graylaw House
42-54 Manor Road
Wallington
SM6 0AB

020 8773 4532

www.jace-training.co.uk info@jace-training.co.uk

JACE Training offers intermediate and advanced apprenticeships, and traineeships. It also offers 14 to 16 learning, vocational qualifications at Levels 1 and 2.

Sutton and District Training

240-244 High Street
Sutton
SM1 1PA

020 8687 5225

www.suttondistrict.co.uk

Sutton and District Training is located in the London Borough of Sutton. It offers a roll on/roll off system which allows enrolment throughout the year.

Sutton and District Training provides foundation learning programmes with vocational qualifications in construction, hair and beauty, health and social care, and customer services.

College of Beauty Therapy (LCBT)

Nescot

Reigate Road
Epsom
KT17 3DS

020 8394 3038

www.Nescot.ac.uk info@Nescot.ac.uk

Epsom's college of further and higher education offers a wide range of full and part-time vocational courses and apprenticeships.

Supported learning

Nescot has a preparation for life and work department for learners with mild to moderate learning difficulties and/or disabilities, and those who have no formal qualifications or are not in formal education.

There are many vocational courses on offer from Entry Level 1 to Entry Level 3 which are all designed to help prepare you for employment through work experience and work related activities.

Merton College

London Road
Morden
SM4 5QZ

020 8918 7777

www.merton.ac.uk

Merton College is a further education college in south west London and is part of the wider South Thames Colleges group. The college specialises in getting students ready for the world of work or higher education and offers subjects such as business and computing, hair and beauty, construction, catering, travel and tourism, and more. Courses start in September.

Supported learning

Merton College has a Skills for Work Life programme for learners with moderate learning difficulties, or learners with autistic spectrum disorder and complex needs in the Aurora Centre. The programme is individually tailored to 16 to 25 year olds who want to develop practical skills for personal development.

Strode's College

High Street
Egham
TW20 9DR

01784 437506

www.strodes.ac.uk admissions@strodes.ac.uk

Strode's College is a small to medium sized sixth form college for students aged 16 to 18. There is a wide range of A Level and BTEC courses. The college also offers intermediate (Level 2) courses, as well as a variety of enrichment courses.

The college has an Intermediate Level Pathway designed for students who have not achieved four or more GCSEs at Grade 4 to 9 or above and prefer a vocational route. You will be able to study BTEC Level 2 courses which are practical and work related and are assessed through assignments.

Supported learning

The Support 4 Learning Team supports students with learning needs or disabilities and provide help with transition from school or home learning to college. If you would like further information about how the college can help you please contact the Support 4 Learning Team.

West Thames College

London Road
Isleworth
TW7 4HS

020 9326 2054

www.west-thames.ac.uk

West Thames College is a medium sized college of further and higher education in the borough of Hounslow. It has a main campus in Isleworth and a smaller skills centre in Feltham. The college offers a wide range of A Level and specialist vocational courses up to higher education level.

Supported learning

West Thames College also offers support to learners with a disability or learning difficulty. Learners can study a wide range of vocational courses to develop communication, numeracy and interpersonal skills. For more information about the supported learning courses available contact the Admissions Team on 020 8326 2020 or visit their website.

Stepping stones to employment

The following section lists various projects and sources of help you can access in Kingston, Richmond and areas nearby to help you move into learning and/or employment.

Spear

Spear offers a six week coaching and highly interactive programme to help 16 to 24 year olds who are not in education, employment or training to get into work. You would attend Monday to Friday from 2 to 5pm and the programme runs six times a year. You would be able to develop your confidence and motivation and improve your communications skills and also gain a customer service qualification. Following this you would get help with CVs and interview skills and support to prepare you for job-skills matching and application support with intensive into work support.

In addition you have personalised mentoring to plan your individual needs and career progression.

Spear has centres across six different sites in London and the surrounding area. Visit www.resurgo-spear.org for more information and or contact them at the following centres below.

National Citizenship Service with The Challenge

www.the-challenge.org

The National Citizenship Service (NCS) with The Challenge is an opportunity for 15 to 17 year olds to build skills for work and life, while taking on new challenges. The programme is split into three parts.

Part 1: Adventure

Participants face a personal challenge learning to overcome their fears, develop confidence in their teams on an action-packed residential.

Part 2: Skills

Participants will be expected to take on a team challenge, mastering new skills and creating a project together to showcase to friends and family.

Part 3: Social action

Participants will be partnered up with a local charity, raising awareness or money for a said charity. They will also need to develop a business opportunity which they will pitch to a panel made up of local MPs and business owners.

NCS with The Challenge programmes have start dates in the summer and during October half term. Check the website for further information.

To sign up visit their website at

Parents and carers

Re-engagement provision

If your child does not have a place in learning for September or is not ready for full time education or employment, we can help prepare them.

Local Offer website

For information on local services and support available for families with children and young people aged 0 to 25 years with special educational needs or disabilities, visit AfC's Local Offer website (www.afcinfo.org.uk/local_offer).

The website contains information on educational opportunities for young people (of all ages) as well as on local provision designed to help you into employment.

Identifying young people who may need support

AfC has a statutory duty to provide education and training to all 16 to 18 year olds. We also support young people to find a suitable place in a school, college or in work-based learning, or part-time education where the young person is combining education with full-time employment or voluntary work.

We work with schools and colleges to determine which young people are participating, however, sometimes we may need to track young people to find out their destination. We will always try to contact you by phone but, where we cannot, we may send a member of the team to visit. Please rest assured that whatever information you provide to us is confidential and we would not pass it on to other services without your consent.

Practical help with their course

Colleges and other providers offer financial help to young people who need support to continue in education and training post-16. If your child needs help with meals, books or other course-related costs, you should talk to the learning provider to see if they are eligible under the 16 to 19 bursary scheme. For more information on the bursary fund, visit the website below.

www.gov.uk/1619-bursary-fund/overview
