SHORT BREAKS SELF REFERRAL FORM

This form is designed to be completed by parents who would like their children to receive a short break service from those listed on page 5. The form can be used to request both specialist and universal services.

If you are currently receiving a short break service, there is no need to fill out this form unless you are requesting a change of short break service because, for example, your child's needs have changed.

For a full outline of what each of these services provides and their target group, please see the Directory of Services and Short Breaks Statement for Disabled Children and Young People. If you do not have a copy of this, you can obtain one from the Family Information Service by calling 020 7364 6495.

If you wish to find out about the progress made in developing our short breaks provision as well as other general information on short breaks, please refer to the short breaks statement featuring in the Directory.

For help in completing the form, please contact the Short Breaks Co-ordinator on:

Tel: 020 7364 1450

DEAR PARENTS/CARERS

Thank you for expressing an interest in applying for a short break service for your child. Please find attached the 'Self Referral' form which sets the eligibility on page 4 and is to be used as a guide to ensure that you are directed to the service you need. It is useful to bear in mind when making your choice that 'specialist* services' are allocated to disabled children and young people whose needs cannot be met by universal* services as they require a higher level of support. The needs of a majority of disabled children are met within universal services without the need for an assessment. Families can ask for an assessment if there is a change in circumstances or if more than one service is required. A short break can be accessed by one of the following:

1. The Self Referral form
2. Common Assessment Framework (CAF)
3. A social care assessment
(which combines with a Carers Assessment)

An assessment is completed by a professional. It takes into account the child's development, parent capacity and family and environmental factors, as families may have the same needs but manage differently. To request an assessment or access more than one specialist service, please contact the Children with Disabilities Team on 020 7364 2724.

We have tried to make the form as simple as possible. If you require any help or further explanation to complete this form, please don't hesitate to call our Short Breaks Co-ordinator on 020 7364 1450. The co-ordinator is more than happy to talk you through it or support you in accessing the help you need to complete the form. Bi-lingual help is also available.

The Self Referral form does not have to be completed if your child already receives a specialist service. Once you have completed the Self Referral form, please send it back to:

Short Breaks Co-ordinator
4th Floor, Mulberry Place,
5 Clove Crescent, London E14 2BG
020 7364 1450
short.breaks@towerhamlets.gov.uk

We look forward to receiving your short breaks application shortly.

*The Authority aims to meet the needs of all children through the universally available, inclusive provision. However, the needs or disability may require targeted provision. The two categories are described below:

Universal services:

Universal services seek, in conjunction with parents and families, to meet all the needs of children and young people so that they are happy and healthy and able to learn and develop securely. Universal services are provided to all children and young people, including those with additional needs.

Examples of universal services are maternity services, health visiting, children's centres, schools, extended schools services and youth services.

Targeted and specialist services:

Services for children with additional needs that go beyond what is on offer in universal services are known as targeted or specialist services. Specialist short breaks are an example of a targeted service. Other examples include extra support during the early years such as the Portage team and additional help with learning in school. Statutory specialist services are where the needs of the child and their families mean that they need intensive statutory intervention to ensure their continued development. An example of this type of service is Children's Social Care.

WHAT HAPPENS NEXT

When completed, please return this form to:

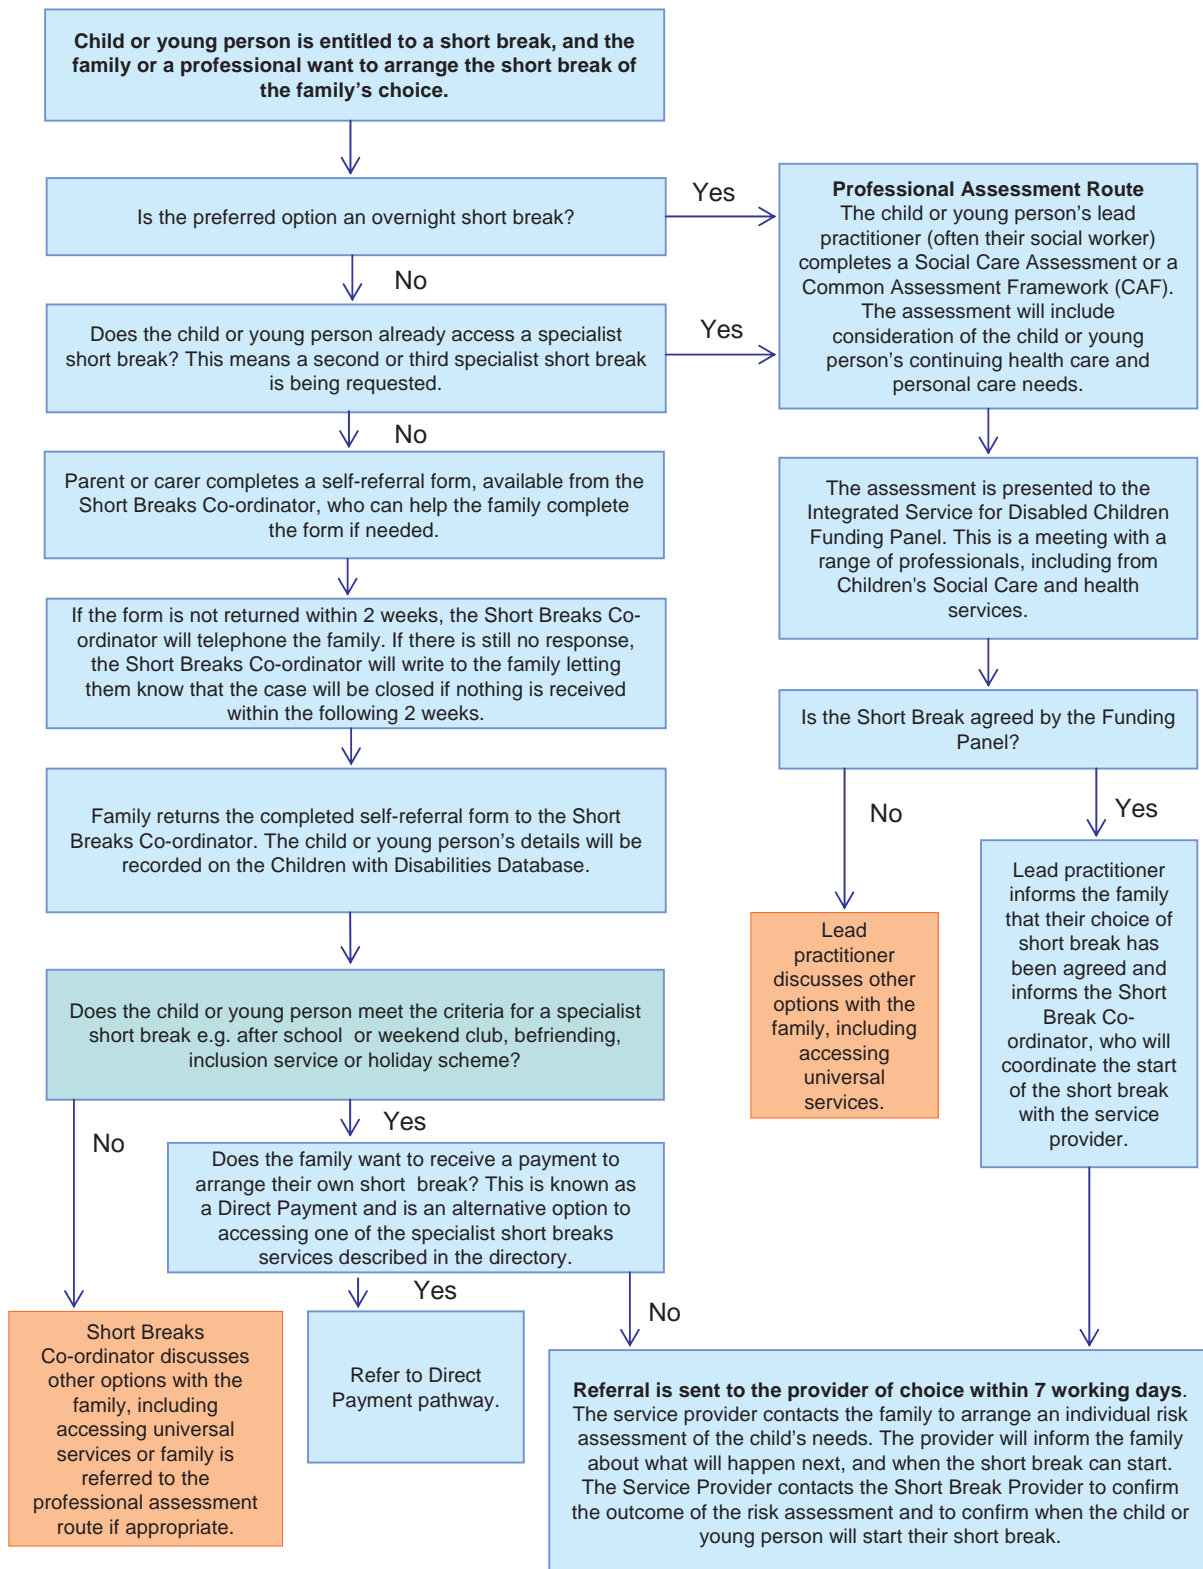

Short Breaks Co-ordinator,
4th Floor, Mulberry Place, 5 Clove Crescent, London, E14 2BG
Tel: 020 7364 1450
Email: short.breaks@towerhamlets.gov.uk

- When your application has been received, you will be contacted by the Short Breaks Co-ordinator to let you know that we have received your form.
- The information provided by you about your child and family will be reviewed by the Short Breaks Co-ordinator and then by the provider that you have requested a service from.
- We will use the information you have given as a guide to allocate the service of your first choice or make suggestions about other services that may assist your child.
- Where we have a waiting list, we will let you know so you can tell us if you prefer to opt for your second choice. The Directory of Services and Short Breaks Statement for Disabled Children and Young People indicates how many places each provision has.
- Once a service is identified, the individual service provider will be in touch with you to tell you more about their services and complete a provision risk assessment with you. This shouldn't take longer than 2 weeks, but if there are complications, the provider will let you know the reason for the delay.
- When you have been allocated a service, the provider will ask you to give feedback on your experience in order to help us improve our services to families in the future.
- Please refer to the Short Break Referral Pathway which appears on the next page setting out ways to access short break services.
