

You Said	We Did
<i>“We want more competitions to enter, they are fun”</i>	We ran a poetry competition in November 2019 and a photo competition in March 2020. Both were well received by the community and it has allowed us to spread the awareness of the Local Offer to a wider audience. We have placed all of the available information on the ‘Competitions page’ on the local offer.
<i>“How do we stay up to date with all of the website information”</i>	We have created a professional Local Offer Bulletin that we send out to our mailing list, whenever we have new information. This has kept our users informed and aware of any changes on the Local Offer website.
<i>“I can’t find much on Child Protection”</i>	We have launched our Community information website, which houses all of the information on child protection, early years, adoption & fostering and much more
<i>“I missed the inclusion summit, can I catch up?”</i>	After a successful Inclusion Summit 2019 event, we have made the slides, interviews and a review of the event available online . We realised that it was important to showcase to the wider public the impact of the event and inevitably it will generate more interest for the next event in 2020.
<i>“Where can I find Achieving for Children’s response to COVID-19”</i>	We have created a specific COVID-19 section to make it easier for everyone to access the latest information. In here you can find out about Service changes, wellbeing resources, education resources and more.
<i>“I’d like to know more about Preparing for Adulthood”</i>	We had stalls present at the two Preparing for Adulthood events in January 2020. There we showcased the in depth information we have for the 14-25 year olds. The volunteering information and money matters guides proved to be the most attractive for parents and teenagers.
