1. Overall assessment and summary

Having sufficient childcare in the London Borough of Richmond means that families are able to find childcare that meets their child's learning needs and enables parents to make a real choice about work and training. This applies to all children from birth to age 14, and to children with disabilities.

In this report, we have made an assessment of sufficiency using data about the need for childcare and the amount of childcare available, we use information about childcare sufficiency to plan our work supporting the local childcare economy.

Some main findings from the report follow.

- We see a slight drop in the number of private, voluntary and independent (PVI) providers but an increase in the places available. This indicates an increased access to larger day nurseries and a reduction of smaller settings, longer opening times of day nurseries and whole year access means an increase in the actual hours that places are available for, providing more availability of childcare over a year. The average registered places per PVI settings rose from 43 to 45 over the year Spring 2018 to Spring 2019
- There is a larger drop in the number of childminders – which follows a national trend. However places available have not dropped by the same percentage, the average registered places for childminders has risen from 5.7 to 6.1. There is an increase in childminders employing assistants or working together to be able to offer a greater number of places.
- The number of families coming forward with eligibility for the 30 hours extended funding remains relatively stable, but is still below the estimate predicted by the government at the commencement of the offer, this is a national trend reported by local authorities. 91.6% of families who have been given eligibility are accessing the extended (30 hours) funding.
- There is a marked increase in the number of maintained school nurseries offering 30 hour funded places (from 5 to 13) and also reviewing their models of delivery to offer greater flexibility to parents, including lunch clubs and wrap around care.
- Support to families is offered by our Families Information Service (FIS) with brokerage and outreach services available. Parents and carers have access to telephone support and are also signposted to our website information including a childcare search facility and information is available at children's centres and other community hubs.
- Richmond shows continued success in the placement of children eligible for 2 year olds, with 87% of eligible children accessing a funded place.
- The level of 3 and 4 year olds accessing Early Education Funding remains consistent with a 0.04% increase from Spring 2018 to Spring 2019.
- Again following a national trend, the number of out of school or holiday club providers offering Early Education Funding to nursery children remains low. This is due to difficulties matching sustainability to demand and around the term time claiming basis on which funding is based.
- This year we have produced additional information at a ward level (available as appendix to this report).

At the time of writing this report there is broadly sufficient childcare availability in Richmond with continual changes of models available within the childcare market so that most families can access a suitable model that meets their needs.

2. Demand for childcare

Population of early years children

In total, there are 12982 children under the age of five living in our local authority. These children may require early years childcare.

Numbers by age

Age	Number of children
Age 0	2,452
Age 1	2,568
Age 2	2,551
Age 3	2,637
Age 4*	2,774

* Some 4 year olds will have started reception

Population of school age children

In total there are 19,348 children aged 5 to 11, and 6,752 children aged 12 to 14 living in our local authority. These children may require childcare before and after school, and/or during the school holidays.

Numbers by age

Age	Number of children
Age 5	2,907
Age 6	2,877
Age 7	2,973
Age 8	2,845
Age 9	2,761
Age 10	2,549
Age 11	2,436
Age 12	2,332
Age 13	2,203
Age 14	2,217

Number of children with special educational needs and disabilities

Children with special education needs and disabilities (SEND) are entitled to support with childcare up to the age of 18 (age 14 for children who do not have a special need or disability). The number of children with an education, health and Care (EHC) plan in our local authority is:

Age	Number of children
Birth to school age	29
Primary school (Reception to Year 6)	603
Secondary school (Year 7 to 11)	631

Children's needs change over time and are identified at different

ages. Among the youngest children, SEND may only be identified when they start in childcare or school, and it can take some time from problems being identified to an EHC plan being issued. It is therefore possible that the number of children with SEND aged 0 to 4 is an underestimate. Some children have SEN, but do not have an EHC plan.

SEN settings are required to adopt a cycle of graduated assess, plan, do, review to support the child's needs. Providers must also have regard to the [SEND Code of Practice \(2014\)](#) and the [Equality Act \(2010\)](#). The SEND Code of Practice outlines four areas of special educational need that include a range of difficulties and conditions: communication and interaction, cognition and learning, social, emotional and mental health and sensory and/or physical.

The majority of children with additional or special educational needs will not require special resources or enhanced staffing to be successfully included in settings. Most settings will be able to meet the initial need of most children. If a child is identified with more complex needs the childcare setting will receive appropriate support from the local authority to meet the child's needs, including, if necessary, support to commence the EHC plan process.

3. Supply of childcare

Number of early years providers and places

In total, there are 356 childcare providers in our local authority who are registered either on the Ofsted Early Years Register or with an Ofsted registered childminding agency. Together they offer a maximum of 9,083 early years childcare places.

Type of provision	Number of providers	Number of registered places for all age ranges
-------------------	---------------------	--

Childminders and agency childminders*	182	1,114
Nursery classes in schools	20	979
Maintained nursery schools	1	78
Private, voluntary and independent nurseries, pre-schools and out of school providers	153	6,912

The data in this table was correct on: 31 March 19

* Some childminder and out of school places may also be available for older children.

For private, voluntary and independent providers and childminders, the number of registered places represents the maximum number of children who can be on the premises at any given time. In practice, many providers choose to operate below their maximum number of registered places.

Children may attend childcare full time or part time. This table records places for children who are attending full time, or for as many hours as the setting is open. In some cases, two or more children attending part time may use one full time equivalent place. For example, one child may attend in the morning and one child may attend in the afternoon, therefore more children can be accessing childcare than the actual number of registered places available.

Early years vacancies

Vacancy rates are a snapshot and will change rapidly. In some cases, providers may have a vacancy which is only available for a specific age group, or for a particular part time arrangement. In general, vacancy rates are higher in the autumn, when children move on to school.

Childcare places are accessed by directly approaching settings to ask about availability and admission criteria.

Maintained and independent schools will generally have one intake in the autumn term (September) for their nursery classes, with applications made in January to March of the same year.

Private and voluntary settings and childminders will intake children for funded places on a termly basis (three times a year) - places have to be accessed by a set date each term (headcount or census date) to qualify for Early Education Funding within that term. Places for children who are not accessing funding should be available year round. Providers will keep waiting lists and work to their own admission criteria which should be available to parents and carers.

Should any support be required, the early years' service is able to assist. An online childcare search is available and a Family Information Service can be contacted directly for guidance and signposting to suitable childcare providers.

Early years atypical hours

Childcare is most commonly delivered during the typical working day (between 8am and 6pm on weekdays), however some providers do operate from an earlier start time or later end time e.g. 7.30am to 6.30pm. Some parents require childcare outside these times in order to fit with their work or other responsibilities. Childminders can often offer a more flexible pattern of hours or families can access childcare across more than one provider to meet their requirements.

Number of school age providers and places

In total, there are 36 out of school providers of childcare for school age children who are registered with Ofsted on the Early Years or Compulsory Childcare Register, most of these providers will deliver a combination of breakfast, afterschool and holiday provision and this is detailed on the table below. There are also 191 childminders registered with Ofsted or with an Ofsted registered childminding agency who may provide care for school age children.

Type of provision	Number of providers delivering	Number of registered places for all age ranges
Breakfast club	20	956
After-school club	27	1,143
Holiday club	21	1,702
Childminders and agency childminders*	191	1,168

The data in this table was correct on: 31.03.19

* Some childminder and out of school places may also be available for younger children

Tracking supply of childcare for school age children is difficult because not all of this type of provision is required to be registered on the Early Years or Compulsory Childcare Register with Ofsted. Some types of provision is not registered or could be registered with the Ofsted Voluntary Register – for example some home childcarers (nannies), out of school providers for older children or those delivering childcare below the hours per day required for registration.

Maintained schools, independent schools, private and voluntary providers may also deliver out of school provision under their wider offer which would not be separately registered. It is likely that the availability of out of school provision varies from the data we are able to collate. Parents may also use provision which is not considered 'childcare', for example sports or arts clubs after school or in the holidays.

4. Funded early education

Introduction to funded early education

Some children are entitled to free childcare, funded by the government. These entitlements are for 38 weeks a year.

- All children aged 3 and 4 are entitled to 15 hours a week until they start reception class in school
- Children aged 3 and 4, where both parents are working, or lone parent families where that parent is working, are entitled to 30 hours per week until they start reception class in school¹
- Children aged 2 whose families receive certain benefits (including low income families in receipt of in-work benefits), or those who meet additional non-economic criteria, are entitled to 15 hours per week. Nationally, about 40% of 2 year olds are entitled to this offer, but the proportion varies by area.

Parents do not have to use all the hours of their funded entitlement. They may choose to split them between providers. With the agreement of their provider, parents may also spread them across the year – for example, rather than taking 15 hours for 38 weeks a year they could take just under 12 hours for 48 weeks a year.

Proportion of 2 year old children entitled to funded early education

In our local authority, 11.8% of 2 year olds are entitled to funded early education. This equates to around 301 children (Spring 2019).

Take up of funded early education

The proportion of eligible children taking up their funded place (for at least some of the available hours) in our local authority is:

Age	Eligible Population	% of eligible children accessing a place
Age 2	301	87.38%
Age 3 and 4 accessing Early Education Funding	3,876	95.30%
Age 3 and 4 accessing Early Education Funding or a maintained reception place	5,411	96.63%

The data in these tables are based on Department for Education data in January 2019

¹ Available to families where each parent (or one parent in a single adult household) are earning the equivalent of working 16 hours a week on the minimum wage

3 and 4 year old funded entitlement applications

Parents who think they are entitled to a 30 hour extended hours place apply for this online through [Childcare Choices](#), the Government’s childcare support website. The same website is used to apply for tax free childcare and parents can apply for either or both. If a parent is eligible, the system creates a code which they can use with their chosen childcare provider. If they are ineligible, they will still be entitled to the universal 15 hours of early education and childcare.

Children accessing extended (30 hour) funding in Spring 2019

Step	Number
Families authorised as eligible for term by HMRC	822
Children taking up extended funding in local authority	753
% take up	91.60
Providers delivering extended funding in Spring 2019	107
Providers offering extended funding in Spring 2019	140

Providers offering funded early education places

Providers are funded directly by government for delivering funded early education places. They are not required to offer funded places, but of course parents may choose to use a different provider if they do not. Providers will offer funded hours within their own model of delivery within the remit of the Early Education Funding Guidance – this means they may offer a restricted number of funded places or offer models where funded hours are accessible within a fixed pattern of days or hours. This is often to support their business sustainability and maximize their operational hours and places.

Type of provision	Number of EY providers	Age 2 targeted		Age 3 and 4 universal 15 hours		Age 3 and 4 – extended 30 hours	
		Offers places	Delivered places Spring 19	Offers places	Delivered places Spring 19	Offers places	Delivered places Spring 19
Childminders and agency childminders	182	24	5	63	24	59	33
Nursery classes in schools and maintained nursery schools	21	2	2	21	21	13	7
Private, voluntary and independent nurseries, pre-schools and out of school providers	153	87	67	126	119	81	74

This table shows the number of providers who offer funded places and may have availability according to their current vacancies and funding model offered, however within any term they may not have children who are actually accessing the funding. The number of providers actually delivering funded places in Spring 19.

5. Prices

Prices of early school years childcare

For early years childcare outside the funded entitlements, we report on average prices per hour, advised to us by settings.² This information is given voluntarily by providers and for this report we recorded information from 23 childminders and 30 PVI providers. Some types of provider were not represented in the responses and therefore information cannot be reported.

² Details of how we collect this data are in the methodology section below

We expect that there will be variations to the prices shown on the number of hours a family uses, with prices changing if fewer or a higher number of hours are accessed, or discounts for sibling groups. There may also be payments for additional services, e.g. meals, nappies, activities which are not included in these prices. When considering taking up a childcare place, all costs which apply should be considered.

Price per hour	Private, voluntary and independent nurseries	School and maintained nursery schools which make charges to parents	Childminders
	Average hourly rate from responses provided		
	£	£	£
0 and 1 year olds	8.09	-	7.43
2 year olds	7.92	-	7.42
3 and 4 year olds	7.66	-	7.13

Prices of school age childcare

For school age children during term time, we report on average hourly rate.

Setting and price unit	Hourly rate
	Average hourly rate from responses provided Ave.
	£
Breakfast club per hour	7.18
After-school club per hour	7.18
School age childminder per hour	7.56
Holiday club per week	-

Responses were received from a total of 21 childminders and five PVI providers, some types of provider were not represented in those responses and therefore information cannot be reported.

6. Quality of childcare in our area

Ofsted inspection grades

All childcare providers must register with and be inspected by Ofsted, who give them an overall grade for the quality of their provision. Childminders who are registered with an Ofsted Registered Childminder Agency are inspected by the Agency to the same standards as a direct Ofsted inspection. Childminders and private and voluntary providers are on the Early Years Register, and schools and standalone maintained nursery schools are on the

Schools register. The grades for both registers are equivalent. Schools with nurseries have an overall inspection grade for the whole school and most also have a separate early years grade.

Both schools and early years providers have four possible Ofsted grades: ‘outstanding’, ‘good’, ‘requires improvement’, and ‘inadequate’.³ Some providers are still awaiting their first full inspection. These providers are excluded from our calculation.

Nursery classes in independent schools do not generally have an Ofsted grade.

Type of provision	Providers with current Ofsted inspection grade	% achieving good or outstanding	Providers without current Ofsted inspection grade	Total number of providers
Childminders	156	94.87%	26	182
Nursery classes in schools and Maintained nursery schools	20	100.00%	1	21
Private and voluntary nurseries	121	97.52%	32	153
<i>Total</i>	297	96.30%	59	356

The data in this table is based on Department for Education data in January 2019 and records from Ofsted registered childminder agencies.

³ For more information see <https://reports.ofsted.gov.uk/about-our-inspection-reports>

7. Methodology

- Number of children: UK Mid-year population estimates (from the Office for National Statistics).
- Children with EHC plans: Data held by Achieving for Children SEND Team at May 2019
- Supply of childcare: based on data provided to us by Ofsted, who regulate early years provision in schools and childcare provision. [In some cases, we have supplemented this with local intelligence where providers are not registered with Ofsted]
- Funded early education: data on take up of funded early education entitlements is based on the Early Years and Schools censuses, which are taken every January and published by the Department for Education in the statistical collection *Education provision: children under 5 years of age*. Data on entitlement to a funded early education place for 2 year olds is provided by the Department for Work and Pensions.
- Provider offering EEF: Local data, those providers who have signed the Local Directory of Providers (DOP) agreement to offer funding.
- Price of childcare: Provider survey July 2019
- Quality of childcare: data on childcare quality is provided by Ofsted.
- UK Mid-year population estimates have been used and may differ from national data source - all cases local data used in order to collate and reconcile at ward level
- 3 and 4 year population: local data source UK Mid-year population estimates (from the Office for National Statistics). Figure 5,411 used.
- 4 year olds in reception: local data source collection from schools = 1,535, DfE figure is 1526, difference nine children
- number of EEF places accessed PVI and CM universal: local data – 2,752 – DfE figure is 2767, difference 15 children
- number of EEF places accessed maintained schools/classes - local data: 942 DfE figure is 927, difference 15 children

8. Appendix

Ward level data

The information on the following pages gives a summary of data on a whole borough and ward level for the following areas;

- Quality of early years childcare
- Number of early years registered providers
- Early Years providers offering Early Education Funded places
- Children eligible for funded places
- Children accessing funded places

We are reporting at ward level to enable a more informed look at a lower level of access across the borough. The information analysed at ward level will enable a more targeted strategy on take up and availability of childcare.
