

ONE PLANNING: Using a person-centred approach to develop a **One Page Profile**

Start by looking at the child/young person

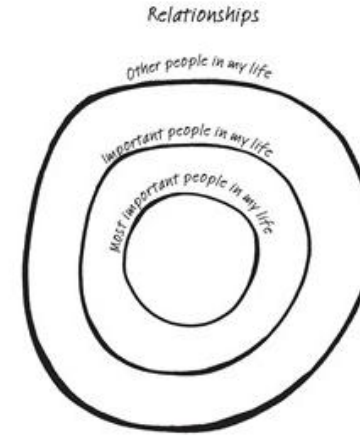

Use **Like and Admire**

... to set a positive tone for the process, and to identify strengths, skills and talents of the child/young person

Use a **Relationship Circle**

... to show the people in the child/young person's life (close/extended family, friends, support staff, teachers, professionals)

Create a **One Page Profile** ... summarising an appreciation about the child/young person; what is important to that child/young person from their perspective; and how to support them well.

Use **Dreams** ... to find out what are the child/young person's dreams and aspirations for the future

Use **Important to, Important for**

... to record what makes the child/young person happy, content and fulfilled as well as what they need to be safe, healthy and developing well
