

Careline Lifestyles
De Bruce Court
Jones Road
Hartlepool
TS24 9BD

De Bruce Court is a nursing home which supports a lot of residents who are diagnosed with Dementia.

Action 1

Make our home more dementia friendly – decor and use of rooms

We have made a start to try and make our home more dementia friendly, e.g. use of colours, pictures, dining room set up. We hope to develop more ideas to improve.

Action 2

To provide activities to involve and support our residents who have a diagnosis of Dementia.

Our residents would benefit from activities that are dementia friendly and help for staff how they can organise these activities and how to get residents involved. They need to be meaningful and purposeful to those residents who are taking part.

Action 3

To provide more dementia training for our staff so that they can support our residents to the best of their ability

Staff would benefit from more training in the condition of Dementia and how they can support residents efficiently and effectively. This would help our staff to know how to approach and interact with those who have dementia.

Action 4

For all of our staff to become Dementia Friends

All of our staff will undertake the 1 hour training session to become dementia friends and make a pledge to our residents.
